

# Natural disaster recovery work on Lawrence Hargrave Drive at Coalcliff

June 2025

Transport for NSW acknowledges the people of the Dharawal Nation as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

## What work are we doing?

We will be installing protection barrier to prevent rocks falling onto the road on the northbound side of Lawrence Hargrave Drive, just north of Bombora Way at Coalcliff.

We will also be carrying out investigation work on two culverts at this location to inform future drainage upgrade work in the area. Work involves digging the ground to locate utilities and gain information about ground conditions.

## When we'll be working

Work will be carried out from **Monday 23 June to Friday 4 July**, weather permitting.

To complete work safely and reduce impacts on the community, we will be working day and night shifts, from **9.30am to 2.30pm and 7pm to 5am, Monday to Friday**, weather permitting.

## What will this mean for you?

There will be some noise and lighting associated with this work.

You may notice:

- workers and vehicles
- traffic controllers and signage
- lane closures and reduced speed limits
- noise and light from machinery and equipment.

We will make every effort to minimise impacts and complete work as quickly as possible.

## Traffic impacts

During work, single lane closures and a reduced speed limit of 40 km/h will be in place for the safety of workers and road users.

For the latest traffic updates, you can call 132 701, visit [livetraffic.com](https://www.livetraffic.com) or download the Live Traffic NSW app.
