

# Traffic changes on Erskine Park Road, Erskine Park from Thursday 19 June 2025

## Mamre Road upgrade

June 2025

Transport for NSW acknowledges the Dharug people of the Wianamatta Nation as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

Transport for NSW is upgrading Mamre Road between the M4 Motorway, St Clair and Erskine Park Road, Erskine Park to reduce congestion and improve safety and travel times.

### What work are we doing?

From **Thursday 19 June 2025**, we will make some temporary traffic changes at the Erskine Park Road intersection to help us upgrade the intersection with minimal disruption to road users and surrounding residents.

The temporary changes include:

- closing the southbound slip lane from Mamre Road onto Erskine Park Road
- reducing the two eastbound traffic lanes on Erskine Park Road from two lanes to one lane each way.

These traffic changes will be in place until

**December 2025.**

Work activities will include:

- large excavation and earth work
- building new road pavement
- relocating water, electricity, gas and telecommunication utilities
- installing stormwater drains

We will need to do some of this work at night to prepare the work area and make it safe for our workers. We will communicate directly with nearby residents before any night work.

### Our work schedule

We will work during the **day** from **7am to 6pm, Monday to Friday** and from **8am to 1pm, Saturday**.

Our night shift hours will be from **6pm to 7am, between Monday night and Saturday morning**. We will work no more than two consecutive nights, three nights a week, and no more than 10 nights a month at the same location.

There will be no work on Sundays or public holidays.

### Managing our impacts

There may be some noise associated with this work. We will make every effort to minimise impacts to nearby residents and businesses by arranging the work in stages at different locations and turning off equipment and vehicles when not in use.

### What equipment will we use?

During our work, we will use:

- excavators, vacuum truck, rollers, bobcats, graders
- concrete pumps, concreting equipment, light and heavy vehicles
- hand and power tools, water carts, sweepers, milling machines, asphalt pavers and road saws.

### Traffic changes

There will be temporary traffic changes to ensure the work zone is safe for workers, residents and road users. Please keep to speed limits and follow the direction of traffic controllers and signs. Thank you for your patience during this important work.
