

New Richmond Bridge Stage 2

Have your Say – Review of Environmental Factors

January 2025

Australian Government

Transport for NSW acknowledges the Dharug people as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

Have your say on the New Richmond Bridge Stage 2– Public feedback open until **Friday 21 February 2025**

Transport for NSW is seeking feedback on the Review of Environmental Factors (REF) for Stage 2 of the New Richmond Bridge project.

The concept design and REF is now on public display for feedback from the community. You can view the REF and related studies under the project documents section on our web page:

nswroads.work/NewRichmondBridge

The REF outlines the project features and assesses the potential environmental impacts expected when the upgrade is built and open.

The REF demonstrates how we plan to minimise and manage these impacts. Your feedback at this stage helps us further understand what is most important to the community.

You can also view the project animation and before and after images on our web page:
