

Rail Service Improvement Program

Newtown to Redfern Signalling Upgrade

February 2025

Transport for NSW acknowledges the Gadigal people of the Eora Nation as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

The Rail Service Improvement Program, formerly known as More Trains More Services, aims to support a safe, equitable, and integrated transport network where people can travel more safely, reliably, and efficiently across NSW.

What work are we doing?

Work inside the rail corridor will involve removal of redundant assets from an existing gantry signalling structure.

When and where we'll be working

Work will occur within the rail corridor between Newtown and Macdonaldtown.

Access to the worksites will occur at:

- Copeland Avenue at Watkin Street, Newtown and
- via Carriageworks, Eveleigh.

Standard construction hours on this project are between **7am and 6pm Monday to Friday and 8am and 1pm on Saturdays**.

Out of hours work

In February, some work is required to take place outside of standard construction hours.

This work will take place between **6pm Friday 7 February to 6am Monday 10 February**.

Why we work outside of construction hours

We schedule work outside of standard construction hours to take place during Sydney Trains trackwork periods when no trains are running, minimising disruptions to commuter services and improving the safety of our construction team and customers.

What will this mean for you?

You may notice an increase in workers and construction vehicles, elevated working platforms, and noise from equipment including hand tools.

Managing our impacts

Work will not be continuous. We understand construction activities may cause disruption to our closest neighbours and every effort will be made to minimise impacts where possible.

Ongoing protected industrial action

Ongoing protected industrial action is currently taking place in New South Wales, which may lead to changes and last-minute rescheduling of work in the Rail Service Improvement Program. We will make every effort to notify you of changes that occur due to this industrial action. We apologise for any inconvenience this may cause.
