

# Community Notification

## Parramatta, Blacktown, Penrith, Emu Plains, Lapstone and Glenbrook Stations

May and June 2025

Transport for NSW acknowledges the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

### The NSW Government is delivering new, state-of-the-art intercity and regional trains.

The new trains will provide new safety features, improved accessibility, facilities and reliability for passengers who travel on our intercity and regional networks.

To accommodate the new intercity (Mariyung) fleet, we need to upgrade and modify some existing rail infrastructure at various locations across the rail network.

### What work are we doing?

In May and June, work within the rail corridor includes:

- installing and commissioning car markers and balise markers
- removing outdated car markers
- installing a temporary platform and CCTV camera (at the end of Platform 2 at Penrith Station only)
- investigations on existing utilities and assets.

Equipment and machinery to be used:

- multi crane (Penrith only)
- excavator (Penrith only)
- generator
- temporary lighting towers
- hand tools, including drills, bars, shovels, jackhammers, and concrete mixing tools
- electrical testing equipment.

### When and where we'll be working

From **Monday 19 May** to **Friday 6 June 2025**, we will be working at and around **Parramatta, Blacktown, Penrith, Emu Plains, Lapstone** and **Glenbrook** Stations during standard construction hours, from **7am to 6pm Monday to Friday** and **8am to 1pm on Saturdays**.

### Out of hours work

To minimise disruption to the rail network and for the safety of staff and customers, some work is required to take place outside of standard construction hours, from **5am on Saturday 31 May to 5am Monday 2 June 2025**, during scheduled Sydney Trains trackwork.

### What will this mean for you?

You may notice:

- workers and vehicles
- lighting from temporary lighting towers
- moderate noise from construction activities.

### Managing our impacts

We will take steps to reduce noise and impacts on the community and the environment.

This includes and is not limited to:

- using non-tonal reversing beepers
- instructing workers to keep noise to a minimum, where possible.

## More information

Working closely with the local community is a priority for Transport for NSW. We will update you regularly on our website with information about upcoming work.

If you have questions or would like more information about the Rail Infrastructure Upgrades project, please contact us using the details below.
