

Safety improvement work continuing at the intersection of Parramatta Road and the M4 Motorway Off Ramp, Strathfield from Sunday 10 August 2025

Community Notification

August 2025

BUILDING AUSTRALIA

Transport for NSW acknowledges the Wangal people as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

Transport for NSW is improving pedestrian safety at the intersection of Parramatta Road and the M4 Motorway Off Ramp, Strathfield. This work is being completed as part of the Road Safety Program.

This work was expected to be completed by Sunday 29 June. However, due to additional drainage and utility investigation work required will now be completed by **Friday 26 September 2025**.

Road Safety Program

The Road Safety Program, which launched in early 2024, aims to improve safety and reduce crashes on NSW roads. The Australian and NSW governments are investing \$518 million into road safety projects across NSW as part of this program.

What work are we doing?

Work activities will include:

- upgrading the kerb ramps at the pedestrian crossing to improve accessibility for pedestrians with mobility issues and parents with prams
- installing new red arrow lanterns on the existing traffic light poles to allow pedestrians to more safely cross the intersection while holding motorists turning left from the M4 Motorway off ramp into Parramatta Road on red arrows

- installing new traffic signal infrastructure, including traffic light cabling, within the footpath and road area.

To install the traffic light cabling, we will need to excavate sections of the footpath and road surface. These sections will be temporarily filled in after each shift and permanently restored before the project is completed.

Further information on the project location is shown on the map overleaf.

When and where we will be working

We will be on site for up to **10 night shifts** between **Sunday 10 August** and **Friday 26 September 2025**, weather permitting.

We will work between **Sunday** and **Thursday, 8pm and 5am**, the next day.

We will not work on Friday nights or Saturdays.

We will work up to five nights per week to complete the work as quickly as possible to minimise our impacts to the community.

What will this mean for you and how will we manage it?

Our work needs to be carried out at night to minimise disruption to traffic and reduce safety risks to our workers, pedestrians, and motorists.

It may be noisy at times, but we will do everything we can to minimise our impacts by:

- turning off equipment and vehicles when not in use
- completing noisier tasks by midnight

- installing noise blankets around our work area when carrying out noisy activities
- using quieter equipment where possible.

Traffic Changes

There will be temporary traffic changes to make sure the work zone is safe. This will include lane closures and a reduced speed limit of 40km/h.

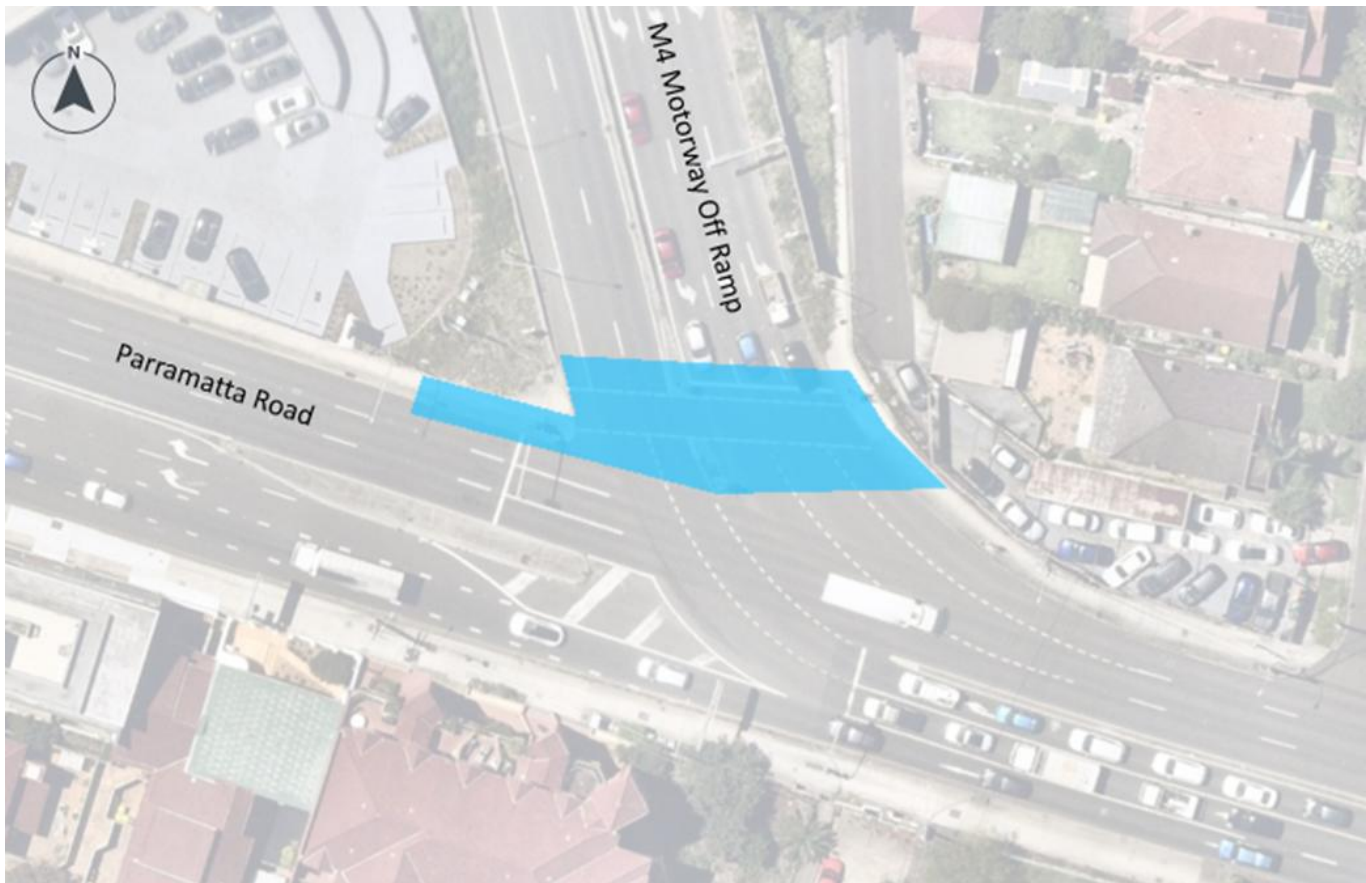

Temporary traffic lights will also be used while we install the new arrow lanterns.

Access to the pedestrian crossing and footpath will be maintained under the guidance of traffic controllers.

Please keep to the speed limits and follow the direction of traffic controllers and signs.

Transport for NSW thanks the community for their patience while we complete this important safety improvement work.
