

Road safety work complete on Great Western Highway at the Pendle Way and Ettalong Road intersection, Pendle Hill

Community Notification

May 2024

Australian Government

Transport for NSW acknowledges the Dharug people as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

Transport for NSW has completed safety improvement work at the intersection of Great Western Highway, Pendle Way and Ettalong Road, Pendle Hill.

We have extended the Great Western Highway right turn bays at the intersection by approximately 100 metres in each direction to improve road safety and ease congestion for all road users.

This project was delivered as part of the Federal Road Safety Program, which aims to improve safety and reduce crashes on NSW roads. Since 2020, the Australian and NSW governments have invested more than \$600 million into road safety projects across NSW as part of this program.

What work have we completed?

To complete the project we have:

- narrowed the central median on Great Western Highway to enable the extension of the right turn bays in both directions
- installed new drainage infrastructure
- replaced sections of asphalt and line marking on the eastbound and westbound carriageways approaching the intersection
- landscaped the central median.

Extended right turn bay on Great Western Highway eastbound carriageway into Ettalong Road

Ongoing activities

You may notice our workers in the area periodically for an additional six weeks while we continue to demobilise the site compound and carry out landscaping maintenance on the grassed central median.

This additional work will take place between **Monday to Friday, 7am and 6pm** and be completed by **Friday 28 June 2024**. There will be no work on the 10 June 2024 public holiday.

We do not expect this work to be noisy.

Thank you

Transport for NSW thanks the community for their patience while we completed this important safety improvement work.

Great Western Highway, Pendle Way and Ettalong Road intersection, Pendle Hill

Extended right turn bay on Great Western Highway westbound carriageway into Pendle Way

Over 2,500 square metres of new grass planted

Over 220 cubic metres of new concrete road surface constructed

Over 230 lineal metres of new drainage infrastructure installed
