

I am writing to seek clarification regarding the classification of roads that fall outside of Transport and Council jurisdictions. Specifically, I am referring to roads within areas managed by various Trusts and Parklands.

At the Botanic Gardens of Sydney, we have several roads that fall under the authority of the Royal Botanic Gardens and Domain Trust Regulation 2020. However, the exact classification of these roads remains unclear, and we are seeking confirmation on how they are categorised in relation to the broader framework.

Additionally, I would appreciate clarification on similar roads at other locations managed by Trusts or Parkland Authorities, such as Centennial Parklands, Moore Park, Western Sydney Parklands, Callan Park and Sydney Olympic Park Authority. It would be helpful to understand how these roads are classified within the current regulatory structure.

Thank you for your time and attention to this matter. I look forward to your response and any guidance you can provide on this.
