

Sydenham Bus Layover community update

Bus Priority Infrastructure Program

June/July 2025

Transport for NSW acknowledges the Gadigal people as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

The NSW Government is committed to restoring reliability across the public transport network. The Bus Priority Infrastructure Program delivers infrastructure improvements to address the reliability and efficiency of bus services in Greater Sydney.

Transport for NSW has started construction on a new bus layover facility at the corner of Railway Road and Burrows Avenue in Sydenham.

This notice is to update you on work occurring in June and July.

What work are we doing?

Throughout June and July, work will involve:

- preparing the foundation of the new layover facility by excavating and compacting the area where buses will park
- saw cutting the road and constructing two stormwater crossings beneath Burrows Road and Railway Road
- temporary line marking on Railway Road
- starting construction of the noise wall.

When and where we'll be working

At this stage, all our work in June and July is scheduled to take place during the day **between 7am and 5pm, Monday to Friday and 8am to 1pm on Saturdays.**

Residents will be notified if any night work is required.

What will this mean for you?

During the work, you may notice:

- workers and vehicles in the area
- traffic controllers and signage
- temporary road closures and reduced speed limits
- footpath closures
- pedestrian and cyclist detours with traffic controllers on site to guide you
- noise from machinery and equipment.

There will be no changes to the bus stop on Burrows Avenue and buses will operate as usual.

Managing our impacts

Work will be noisy at times, but we will do everything to minimise our impacts by:

- completing noisier activities during the day
- turning off machinery when not in use
- not working on Sunday during the day or on public holidays.

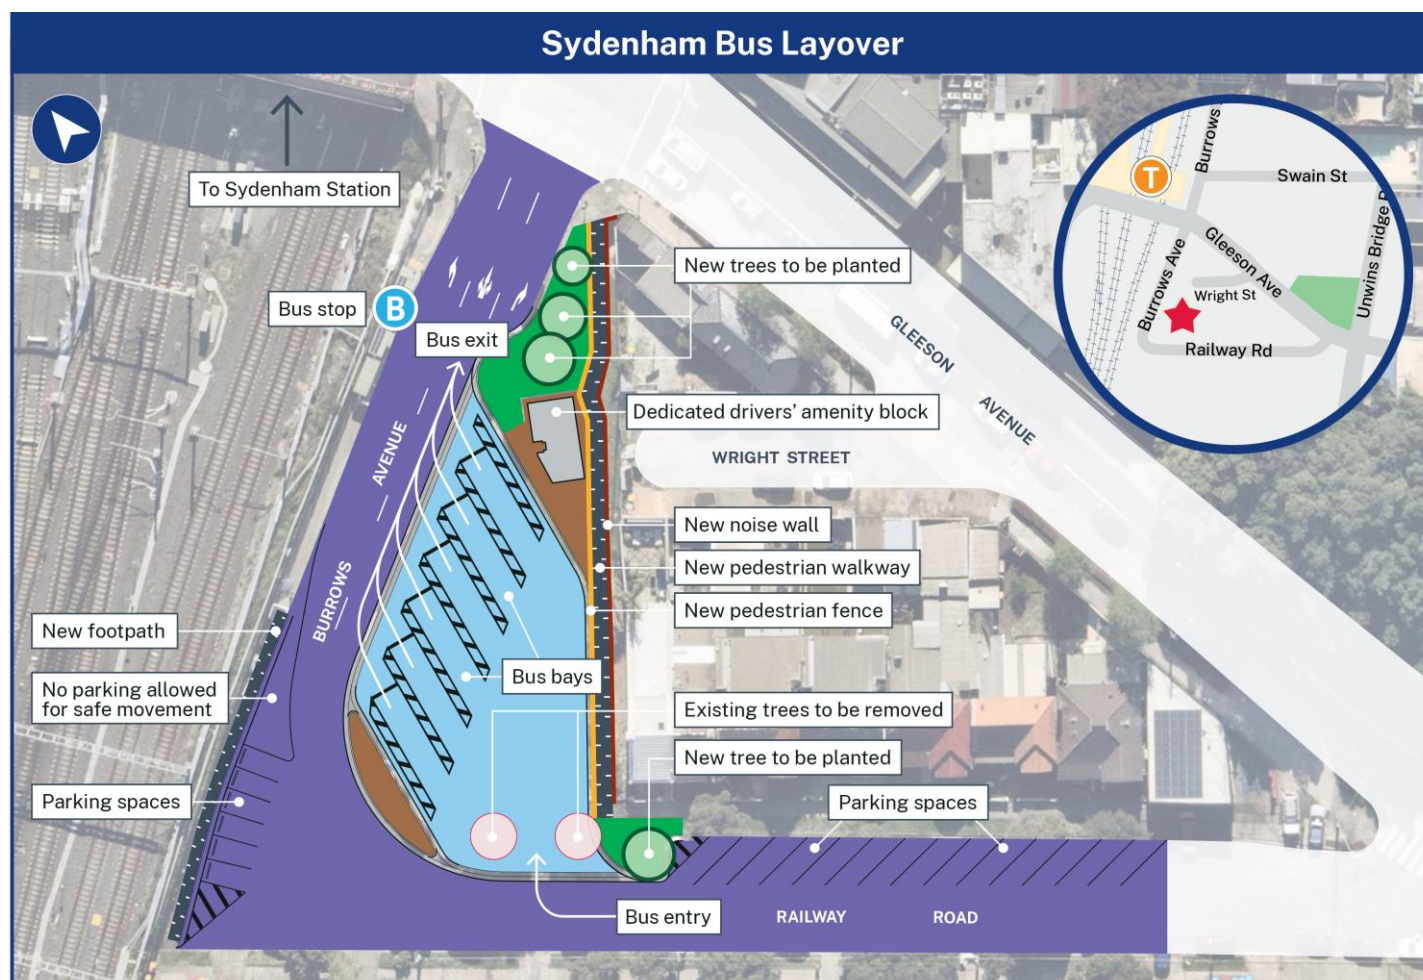

Temporary line marking on Railway Road

Towards the end of July, we will be reconfiguring the existing kerbside parking on the northern side of Railway Road to create angle parking and additional parking spaces while construction of new layover facility is under way.

To complete line marking, the area will need to be clear of parked vehicles for one day. Signage regarding this will be installed in advance, and adjacent residents notified once a date has been confirmed.

Location of work area

Stay up to date

If you would like to sign up for construction updates or speak to us about upcoming changes you can email or call our team (see below)
