

Construction update

Sydney Harbour Bridge Cycleway Ramp

November 2025

Transport for NSW acknowledges the Cammeraygal people of the Eora Nation as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

Upcoming work

Work onsite in November 2025 includes:

Day work

- Installing bronze balustrades, bump rails and pavers on the ramp.
- Modifying services on Alfred Street South and Lavender Street.
- Ongoing footpath and road work along Alfred Street South to build the new two-way cycle path and shared path.
- Installing new kerbs, gutters and footpaths and new cyclist on-ramp at the southern end of Middlemiss Street and Lavender Street.
- Laying pavers along Alfred Street South and in front of Milsons Point Station inside work areas.
- Landscaping in Bradfield Park.

Night work

- Ongoing footpath and road work along Alfred Street South to build the new two-way cycle path and shared path. Including laying pavers along residential driveways – see map for locations.
- Testing the watermain on Alfred Street South and Middlemiss Street.
- Trenching across Alfred Street South to place overhead powerlines underground. Alfred Street South, near Lavender Street, will be temporarily closed during this work. Access to residential buildings will be maintained via traffic control.
- Removing and replacing the footpath and kerb at the corner of Middlemiss Street and along Lavender Street.
- Building the new permanent in-lane bus stop on Alfred Street South.

Night work will be carried out from **6pm to 7am** on:

- **Wednesday 5 and Thursday 6 November**
- **Wednesday 12 and Thursday 13 November**
- **Wednesday 19 and Thursday 20 November**

Refer to the map over the page for work locations.

Temporary bus stop closure on Alfred Street South

From early to mid-November 2025, the northbound Alfred Street South bus stop (ID 206128) will be closed for approximately four weeks to allow construction of the new permanent in-lane bus stop.

Signage will be installed at the bus stop with more information and date of closure.

What you may see on site

Our work will require the use of plant and equipment including excavators, jack hammers, road saws, vacuum and tip trucks, light vehicles, street sweepers, lighting towers and hand tools which will move between sites. You may notice:

- workers and vehicles
- traffic controllers and signage
- road closures and reduced speed limits
- footpath closures
- noise from machinery and equipment.

For the safety of our workers and the community, and to reduce our impact on local traffic, you may see trucks arrive and depart before 7am and after 6pm.

Managing our impact

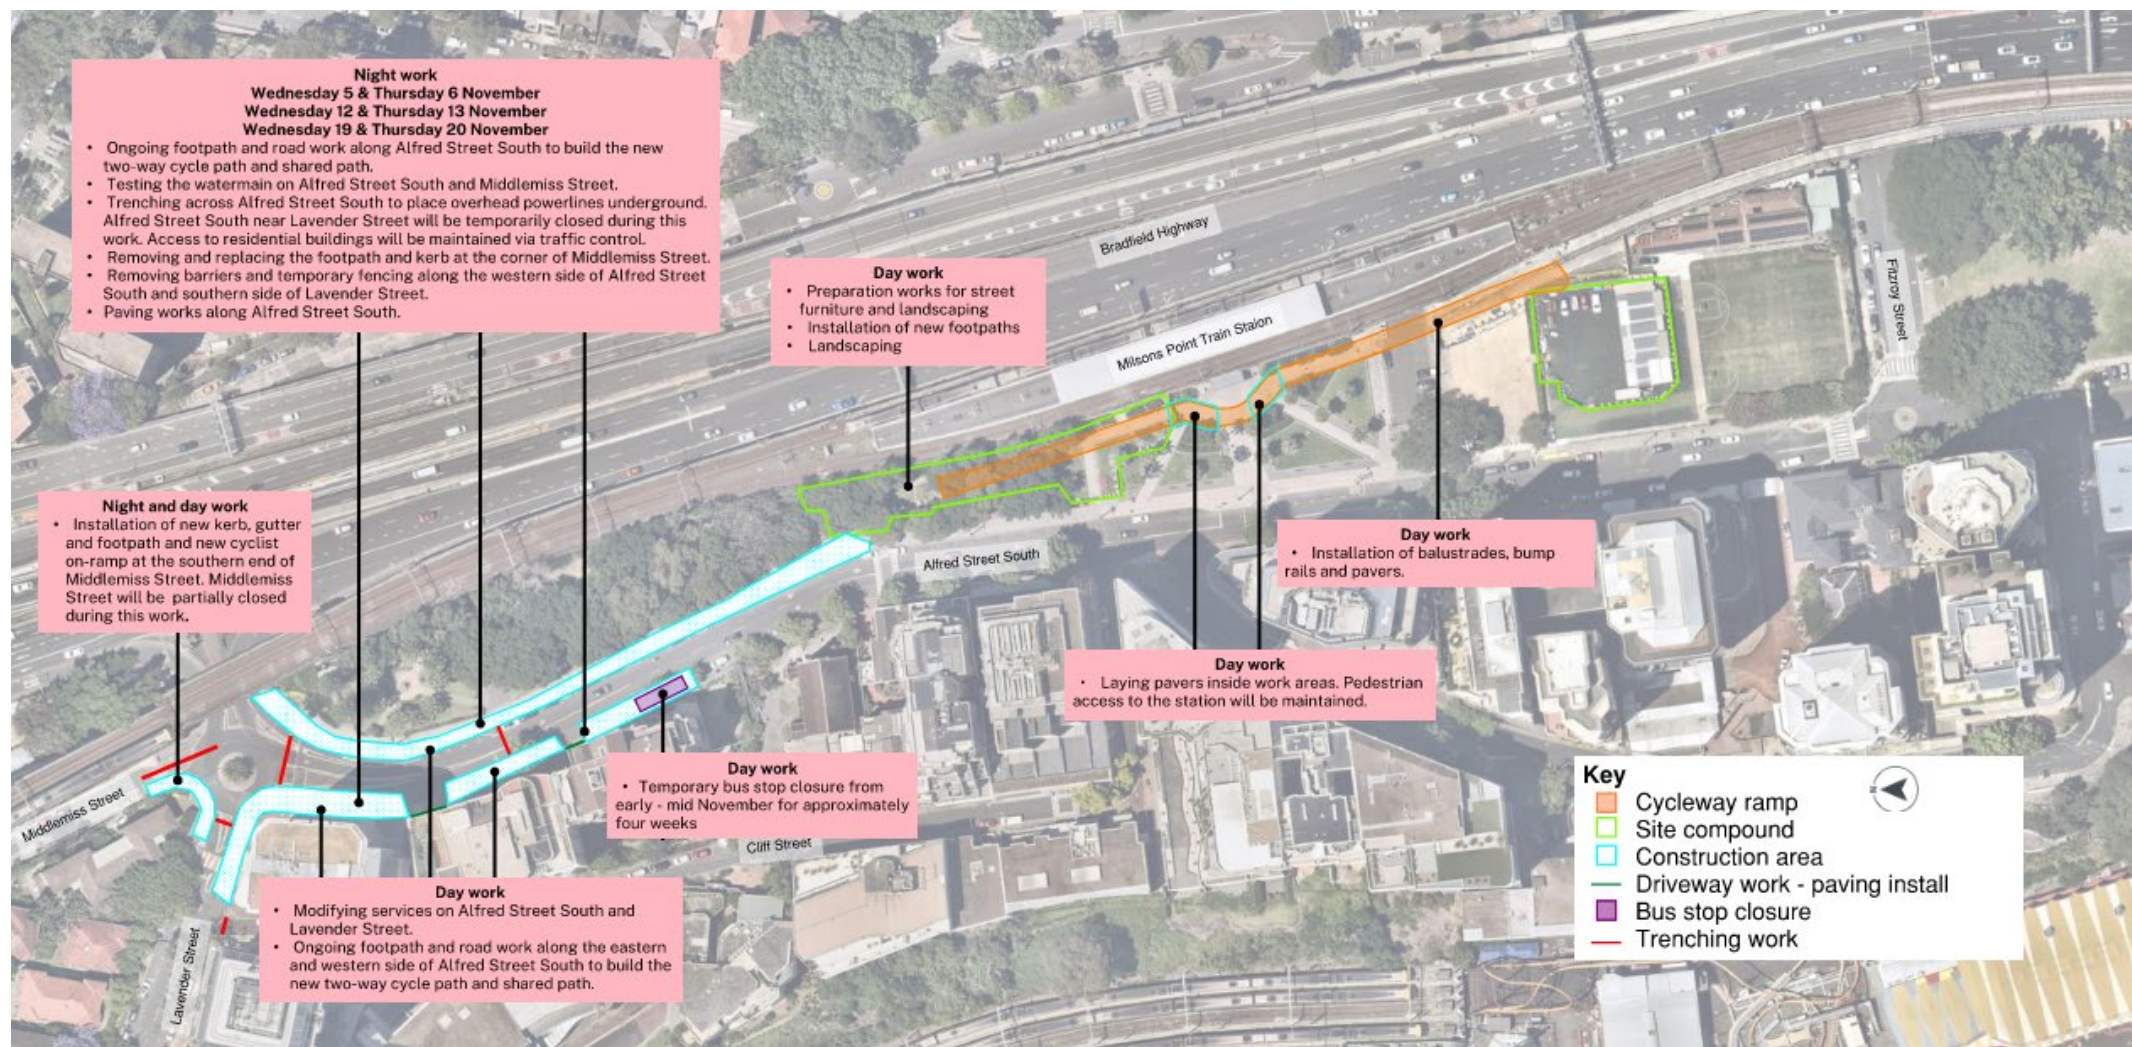

We will minimise impacts to the community and the environment by:

- reducing noise as much as possible by turning off equipment when not in use
- using non-tonal reversing beepers
- monitoring noise periodically so we can manage potential impacts and adjust our work if required.

Construction is progressing well. Subject to weather or any unforeseen circumstances, we anticipate the cycleway to be open in summer. We'll announce an opening date in the coming weeks and keep the community updated as work progresses.

Location of upcoming work

When we'll be working

Standard construction hours are:

- 7am to 6pm Monday to Friday
- 8am to 1pm on Saturday

Work will be carried out during the day wherever possible, however, some work will be required outside of these hours to minimise impacts to local traffic.

Impacted residents will be notified of work outside of standard construction hours before we start.

Contact us

If you have any questions regarding the project or would like to speak to a member of the project team, you can contact us via:
