

April community update

Tuggerah Station Upgrade

March 2025

Transport for NSW acknowledges the Darkinjung people as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

The NSW Government is improving accessibility at Tuggerah Station

Transport for NSW is upgrading Tuggerah Station. The upgrade will provide a train station that is safe, inclusive and easy to use for all passengers - especially people with disability, older people, people with prams or luggage and others who might be experiencing mobility problems.

Project status update

The new lifts, concourse and public rest rooms are now open to the public.

What are we doing in April 2025?

Work includes:

- general construction works, including delivery and removal of plant and materials
- installation of corridor fencing
- asphalt works in the Bryant Drive carpark
- earthwork activities
- pavement installation around station entries and bus bay at Bryant Drive
- landscaping
- removal of hoarding
- site shed removal.

We will use various items of equipment, including cranes, excavators, jack hammers, trucks including tippers, flat tray track and Hiab, elevated work platform, concrete trucks and concrete pumps, powered and manual hand tools.

Drivers will continue to see construction vehicle movements and traffic control on Pacific Highway and Anzac Road.

When we'll be working

Standard construction hours are **7am to 6pm Monday to Saturday**. We will notify nearby residents and businesses in advance if we need to work outside these times.

Managing our impacts

A traffic control team will be available to assist with any impacts to pedestrian movements.

This work may be noisy; however, we aim to avoid impacts to the community and the environment where possible by:

- fencing off areas for the safety of commuters
- using noise blankets and turning off machinery and equipment when not in use.

Thank you for your patience as we carry out this important work.

The new station footbridge with accessible toilet facilities have now opened.
