

May community update

Tuggerah Station Upgrade

April 2025

Transport for NSW acknowledges the Darkinjung people as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

The NSW Government and Transport for NSW have completed accessibility upgrades at Tuggerah Station.

The upgrade provides a train station that is safe, inclusive and easy to use for all passengers - especially people with disability, older people, people with prams or luggage and others who might be experiencing mobility problems.

What work was completed?

Work carried out includes:

- new pedestrian footbridge, lifts and stairs connecting the Pacific Highway, commuter car park, and station platforms
- upgraded power feeds
- family accessible, male, and female ambulant toilets
- widened platforms for improved customer accessibility
- upgraded station entrances with new landscaping and bicycle hoops
- upgraded accessible parking spaces in the commuter car park
- enhanced bus stops and kiss-and-ride spaces
- improved CCTV, lighting, communication systems and wayfinding signage
- new and upgraded footpaths, along with local Aboriginal artwork

Thank you

Transport for NSW thanks the community for their patience while we completed this essential work at Tuggerah Train Station.

Finishing activities

The main work is now complete but we still need to carry out some finishing works on site, which are also nearing completion.

You may notice our workers in the area in May 2025 while we carry out these final works.

We do not expect the community to be impacted by this work.

Upcoming work

From **2am Saturday 17 May to 7am Monday 19 May 2025**, we will carry out some of these final works.

There will be intermittent impacts to the kiss-and-ride parking to allow for deliveries and construction work on the Pacific Highway and Bryant Drive side.

Key Facts

During the project:

9,807 workers worked on the project

132,436 hours were worked on the project

1,000m³ of concrete was poured

Approximately 100 tonnes of steel was used

The New Tuggerah Station entry – Bryant Drive car park
