

Work at Lysaghts Station

Rail Infrastructure Upgrades

August 2025

Transport for NSW acknowledges the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

The NSW Government is delivering new, state-of-the-art intercity and regional trains.

The new trains will provide new safety features, improved accessibility, facilities and reliability for the passengers who travel on our intercity and regional networks.

To accommodate the new intercity (Mariyung) fleet, we need to upgrade and modify some existing rail infrastructure at various locations across the rail network.

What work are we doing?

In August, work within the rail corridor includes:

- installing car markers
- site investigations on existing utilities and assets.

Equipment and machinery to be used:

- general hand tools.

When and where we'll be working

From **Monday 11 August to Friday 29 August 2025**, we will be working at and around **Lysaghts Station** during standard construction hours, from **7am to 6pm Monday to Friday and 8am to 1pm on Saturdays**.

Out of hours work

To minimise disruption to the rail network and for the safety of staff and customers, some work is required to take place outside of standard construction hours, from **6am to 6pm on Saturday 16 August and Sunday 17 August 2025**, during scheduled Sydney Trains trackwork.

What will this mean for you?

You may notice:

- workers and vehicles
- moderate noise from machinery and equipment.

Managing our impacts

We will take steps to reduce noise and impacts on the community and the environment.

This includes and is not limited to:

- using non-tonal reversing beepers
- instructing workers to keep noise to a minimum wherever possible.

More information

Working closely with the local community is a priority for Transport for NSW. We will update you regularly on our website with information about upcoming work.
