

Yass Road, Bungendore Road and Ellerton Drive intersection upgrade

Project update

March 2025

Planning is under way to upgrade the intersection of Yass Road, Bungendore Road and Ellerton Drive in Queanbeyan East, to improve traffic flow and road safety. The project is in development and a proposed design is now available for community feedback.

Current intersection of Yass Road, Bungendore Road and Ellerton Drive

Key features:

Key features of the proposal include:

- removing the roundabout
- installing traffic signals
- constructing additional lanes on all approaches for through traffic and right turning vehicles
- constructing dedicated left turn lanes on all approaches to the intersection
- signalling pedestrian crossings on all roads at the intersection
- removing the pedestrian underpass under Ellerton Drive
- upgrading footpaths and connecting to existing path networks
- installing on-road cycle lanes on Ellerton Drive and Yass Road.

Have your say

The community is invited to provide feedback on the proposed design of the intersection upgrade. This feedback will help us understand your priorities or concerns, which will inform the detailed design.

You can provide your feedback by completing the survey at transport.nsw.gov.au/ybe or by scanning the **QR code**. You can also email or write to us.

Feedback closes **Sunday 13 April 2025**.

Community information sessions

You are invited to meet the team and learn more about the project at one of our pop-up sessions:

Thursday 3 April, 10am - 2pm

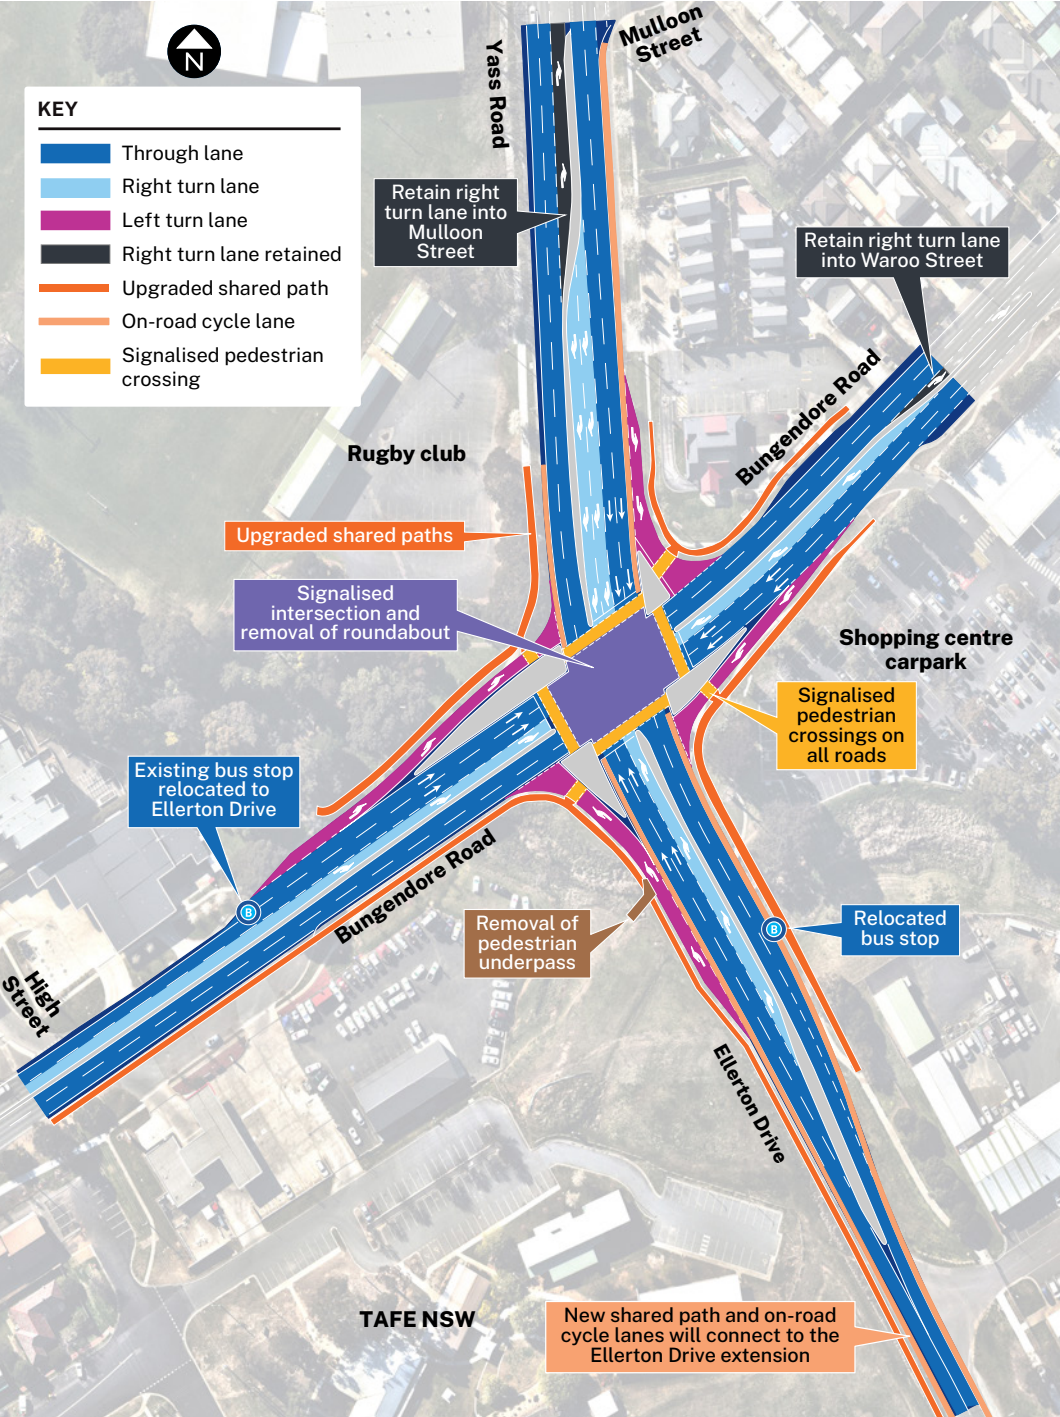

Short term improvement work

While development has been under way for the long-term upgrade of the intersection, minor work has been carried out to improve traffic efficiency and pedestrian safety in the short term.

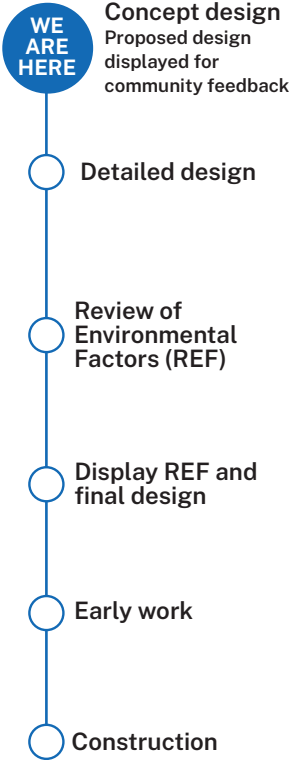

In April 2024, an additional lane was provided on Ellerton Drive to allow right turn movements and increase capacity for through traffic. A new pedestrian refuge with ramps was also installed to improve safety for pedestrians crossing Bungendore Road.

Monitoring of the intersection has shown a noticeable improvement in morning peak hour travel times on Ellerton Drive since the short term improvement work was completed.

Proposed intersection design

Progress timeline

- Improving cyclist and pedestrian connectivity
- More efficient and reliable trips
- Improving safety
- Improving traffic flow
