

Appin Road Upgrade Mt Gilead to Ambarvale Stage 1

Out of hours work notification | September – October 2025

Construction is continuing on Appin Road from Mt Gilead to Ambarvale (Stage 1). As part of the new Figtree Hill community, we are delivering important safety upgrades to Appin Road in Campbelltown, between Ambarvale and Gilead. Georgiou Group have been appointed as the Principal Contractor to deliver this project on behalf of Stockland.

There are some activities that cannot be undertaken during standard construction hours due to the proximity of these activities adjacent to live traffic on Appin Road. Therefore, to provide a safe work environment with minimal disturbance to traffic these activities are required to be undertaken during the evenings and night-time periods.

From **Monday 01 September to Friday 31 October 2025**, evening and night works will occur along the work area of Appin Road and will include:

- Placement of asphalt pavement include profiling of existing asphalt pavement.
- Removal of line marking and installation of new line markings.
- Installation of traffic light loops.
- Construction of the new concrete median island.
- Installation of streetlights.
- Installation of the fauna rope crossing.

Location of out of hours work along Appin Road

How will this work affect you?

During night works, we will use machinery and equipment such as: trucks (include concrete and vacuum trucks), excavator, profiling machine, asphalt machine, road sweeper, line marking truck, lighting towers and hand tools.

These works may be noisy at times. Where possible, we will take steps to minimise noise and disruption by:

- Completing noisy activities such as saw cutting before midnight.
- Undertaking noise monitoring to determine noise levels are within predicted noise levels.
- Moving machines and equipment away from residences.
- Communicating over distance by radio and hand signals.
- Turning vehicles and equipment off when they are not in use.

Work schedule

Our regular work hours are **Monday to Friday 7am to 6pm, and Saturday 8am to 1pm**. In addition to these hours, there will be some evening and night works between **Monday 01 September to Friday 31 October 2025, from 7pm to 5am**.

To maintain safety for road users and workers, and to minimise the impact on the road network during peak travelling times, some of our work will need to be carried out in the evenings and nights.

Evening and night works in the vicinity of residential properties will be undertaken between **7pm and 5am** for up to **three evenings and nights per week**, with only two consecutive evenings and nights and no more than **10 evenings and nights per month** near the same property.

Traffic changes

During these works, there will be temporary traffic changes along a section of Appin Road to minimise impacts to traffic and ensure the safety of workers and road users.

These changes will include:

- Temporary lane closures
- Temporary speed limit reduction

Electronic signage will advise road users of these changes. Please keep to the reduced speed limit and follow the directions of traffic controllers and signs.
