

Ongoing bridge maintenance at Talbragar River east of Dunedoo

April 2025

Transport for NSW acknowledges the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

Transport for NSW is carrying out essential maintenance work at the bridge over the Talbragar River located around 10 kilometres east of Dunedoo on the Golden Highway to improve drainage.

When and where we're working

Work commenced on Monday 24 March 2025 at the bridge over the Talbragar River located around 10 kilometres east of Dunedoo on the Golden Highway, east of the intersection with the Castlereagh Highway. We have provided a map over the page to show the location of the work.

Work was expected to take up to three weeks to complete, however due to delays experienced by our crews we now expect it will be **another three weeks** before the work is completed, weather permitting.

Work will continue until 17 April, with no work occurring between 18 April and 27 April. Our crews will resume work on site on Monday 28 April and **expect to complete the work by Friday 2 May 2025**, weather permitting.

All work activities and dates are subject to weather and site conditions.

Working hours will be between **7am and 6pm from Monday to Friday**, and if required between **8am and 1pm on Saturday**. No work will take place on Sundays or public holidays.

What work are we doing?

The work includes:

- reinstating an access track on both sides of the bridge
- removing flood debris from the upstream side of the bridge and underneath the bridge
- cleaning the drainage outlets on the bridge kerbs to prevent water from accumulating on the bridge
- placing rocks both upstream and downstream of the bridge to protect against erosion.

What this will mean for you

There will be temporary traffic changes to ensure a safe work zone, including:

- **intermittent stopping**
- **single lane closures**
- **a reduced speed limit of 40km/h** during work hours.

Outside of work hours, both lanes will reopen and the speed limit will return to the posted speed.

Please allow up to **ten minutes** of extra travel time during the work and always follow the direction of traffic controllers and signs.

Managing our impacts

We aim to manage our work to minimise impacts to the community and the environment. The work will involve the use of machinery which generates

some noise. We will make every effort to minimise noise by turning off machinery and vehicles when not in use.
