Transport for NSW

Fifteenth Avenue Upgrade

Community Update

August 2025

The Australian and NSW governments are investing \$1 billion to upgrade Fifteenth Avenue, with construction expected to start in 2027.

The upgrade will include:

- Two lanes in each direction
- Space for future bus lanes
- Traffic lights at multiple intersections including Second Avenue
- Turning lanes, making it safer for the local community
- · Improvements for people walking and bike riding
- · Better road signs.

Transport for NSW acknowledges the Dharug people as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

Future vision

Liverpool to Airport Transit Corridor

In the future, we will transform Fifteenth Avenue into the Liverpool to Airport Transit Corridor, providing a direct link to Bradfield City Centre. We will do this by further widening Fifteenth Avenue and building a new road from the western end of Fifteenth Avenue to Bradfield Metro Link Road. We are also currently working on the Bradfield Priority roads, to make sure the road network will link to the future extension of Fifteenth Avenue.

The upgrade is a key part of the Transport for NSW 30-year strategic vision, *Connecting the Western Sydney Airport Precinct*. The vision is designed to bring equity to Western Sydney, by developing a reliable transport network connecting people to housing, jobs and economic opportunities in the new Bradfield City Centre and Western Sydney International Airport.

Future stages of the Liverpool to Airport Transit Corridor are not yet funded, but the work we are doing now is the first step in bringing this future vision to life.

Planning for the future – Corridor protection

Corridor protection is important when planning for the needs of growing communities and industries. To make space for future upgrades including dedicated bus lanes, Transport for NSW will protect land along Fifteenth Avenue between Cowpasture Road and Devonshire Road.

Protecting land ensures that as NSW grows, communities will have access to transport into the future.

Specific information about the location of corridor protection will be provided when plans for the Fifteenth Avenue upgrade are more developed. Owners of affected properties will be contacted individually.

Corridor protection includes land owned by private people and businesses.

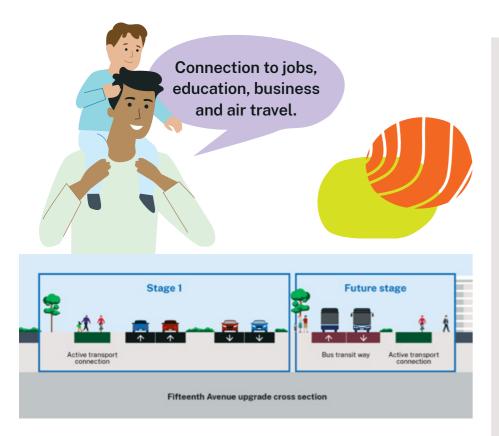

Property acquisition within NSW is governed by the Land Acquisition (Just Terms Compensation) Act 1991.

Planning the upgrade

In January 2025, the Federal and the NSW State Governments announced joint funding of \$1 billion to upgrade Fifteenth Avenue, from Cowpasture Road towards Devonshire Road.

The upgrade will widen the road to four lanes (two lanes in each direction), and make improvements for people walking, getting onto buses and bike riding.

Once complete the upgrade will:

Reduce congestion and improve travel times

Make it safer for all road users

Support a growing community.

Road upgrades must be planned carefully, and this takes time.

We have now awarded the tender for a concept design to be developed. In the coming months we will start consulting the community on early proposed plans, including the Access Strategy. This will ensure road users and residents can provide feedback and help inform our decisions.

What's happening now?

We know the local community is experiencing congestion and delays along Fifteenth Avenue, as more than 22,000 vehicles use the road every day.

While planning work on the major upgrade continues, we are prioritising some early work to improve safety and provide relief for road users and the community that will take place in stages from mid 2025.

Reducing speed limits

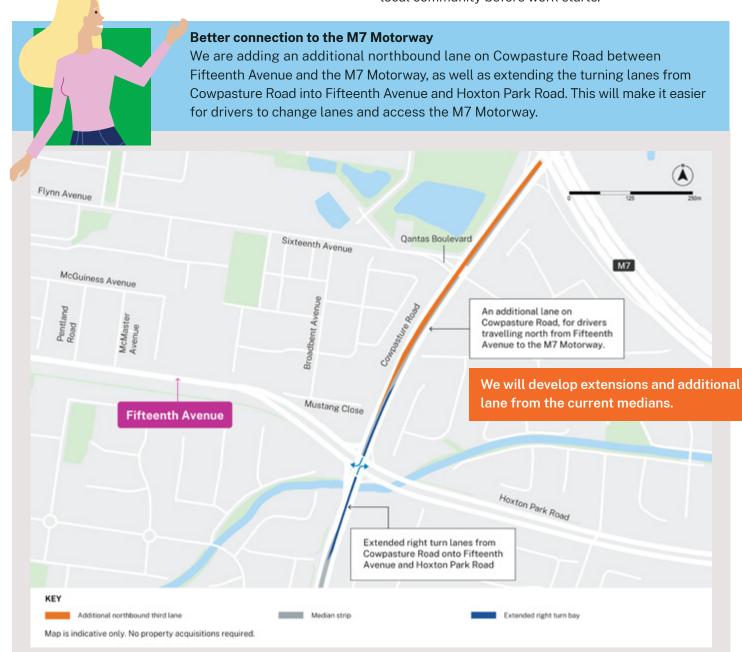

We are reducing the speed limits to 60km/h on sections of Fifteenth Avenue, Ramsay Road, Western Road, Devonshire Road, Austral and King Street, Rossmore.

New speed limits take effect once we install the signs.

Early improvements

We are investigating improvements to pedestrian safety. We will also improve line markings and signs in certain areas. These changes will make travel easier and safer for all road users and pedestrians. We will notify the local community before work starts.

What happens next?

- New 60km/h speed limit along the entire road.
- New line marking and signs along Fifteenth Avenue.
- We will start sharing regular updates as our plans progress.
- We are investigating improvements to pedestrian safety.
