

# Traffic counts at various locations in Lisarow, Narara and Wyoming from Tuesday 17 June 2025

June 2025

Transport for NSW acknowledges the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

The NSW Government is carrying out traffic survey investigations along the Pacific Highway, Manns Road and Showground Road corridor at Lisarow, Narara and Wyoming to inform future projects.

Transport for NSW have engaged contractors to carry out the work, which will provide Transport with a better understanding of current traffic volumes in the area.

## What work are we doing?

Work will include installing tube traffic counters on the Pacific Highway between Parsons Road and Kinarra Avenue, Manns Road between the Pacific Highway and Carrington Street, and Showground Road between Bellbowrie Avenue and Maliwa Road.

## When and where we'll be working

From **Tuesday 17 June from 7am to 6pm, Monday to Sunday**, weather permitting.

Night work will be required for tube count devices to be installed, monitored and removed.

Night work will be carried out **between 7pm and 6am** and is expected to be **completed in four shifts over a three-week period**, weather permitting.

We will let you know in advance if we need to do any work outside these times.

We have included a map to show the investigation area where the traffic counts will be carried out.

## What will this mean for you?

The work will cause no disruption to your property.

You may notice workers in high vis clothing, using lighting to carry out the work.

Tube counter installation will generate some noise - we are making every effort to minimise noise by completing the investigations in the shortest possible time frames.

Driveway access will be maintained at all times.

## Traffic changes

There will be some temporary traffic changes to ensure the work zone is safe.

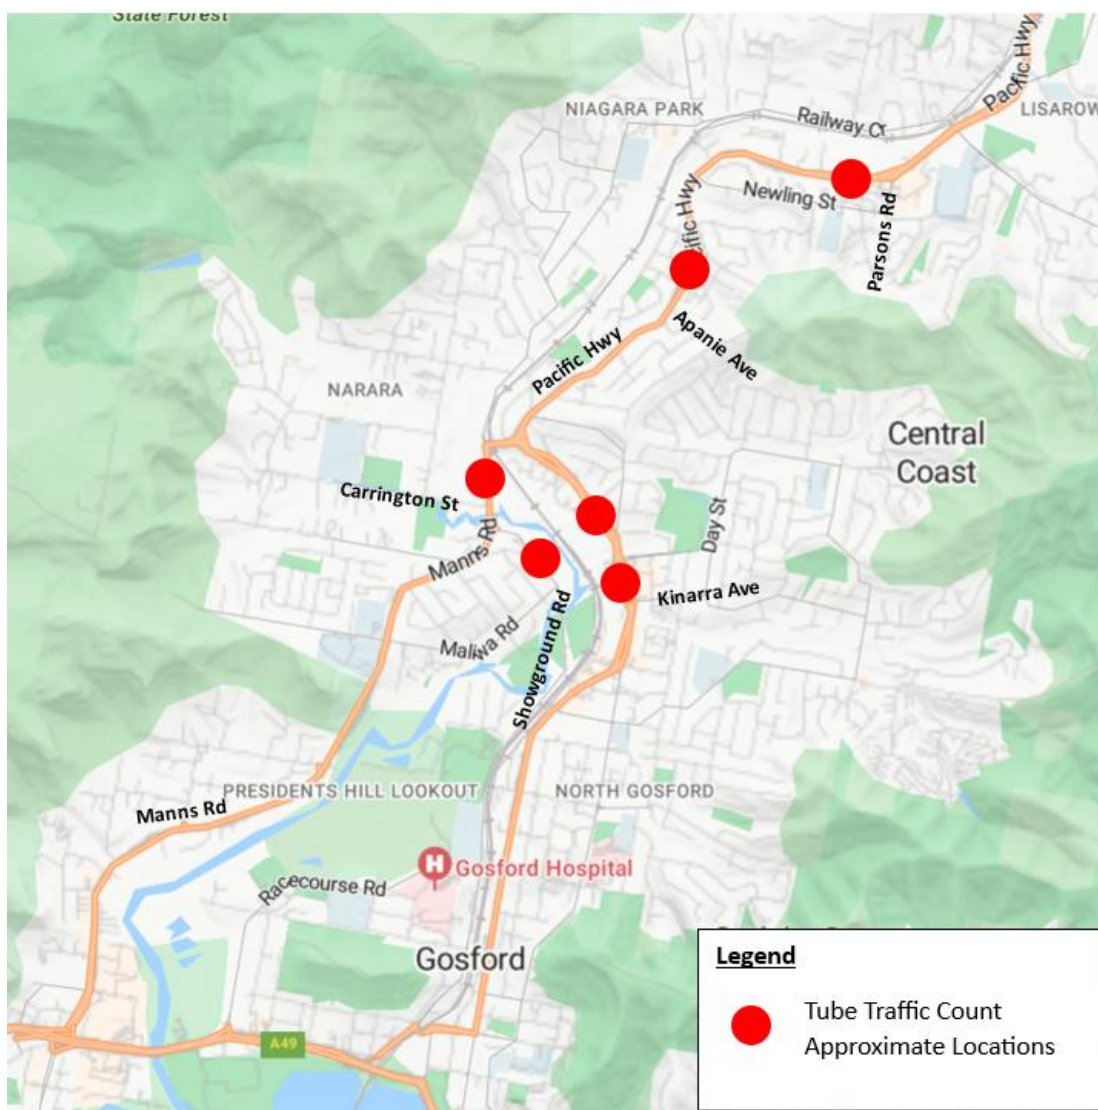

Single lane and shoulder closures with traffic control and a 40km/h speed limit may be in place while equipment is installed at night.

Please keep to speed limits and follow the direction of traffic controllers and signs.

Thank you for your patience during this important work.
