

Investigations on Moss Vale Road near Hampden Bridge during September/October

September 2025

Transport for NSW acknowledges the Indigenous communities of Dharawal- and Dhurga-speaking Country as the Traditional Custodians of this land and pays respect to Elders past and present.

Transport for NSW (Transport) will carry out geotechnical investigations on Moss Vale Road near Hampden Bridge from 22 September, weather permitting.

What work are we doing?

In June 2025, Transport for NSW reduced the load limit on Hampden Bridge from 42.5 tonne to 23 tonne to reduce strain on the historic bridge and help prevent further damage.

Transport is investigating options to enable the crossing to return to a 42.5 tonne load limit.

The geotechnical investigations will inform this work. Utility investigations are also underway.

Work includes:

- Minor vegetation clearing
- Drilling bore holes
- Drilling road pavement core holes.

When and where we'll be working

We'll be working on Moss Vale Road, near Hampden Bridge.

Work will be carried out between **7am and 5pm, Monday to Friday from 22nd September for up to two weeks**, weather permitting.

What will this mean for you?

During work we will be using equipment and machinery that generates some noise, light and vibration. You may notice:

- workers and vehicles
- traffic controllers and signage
- lane closures and a reduced speed limit of 40 km/h.

We will make every effort to minimise disruption and carry out this work as quickly as possible.

Traffic changes during work hours

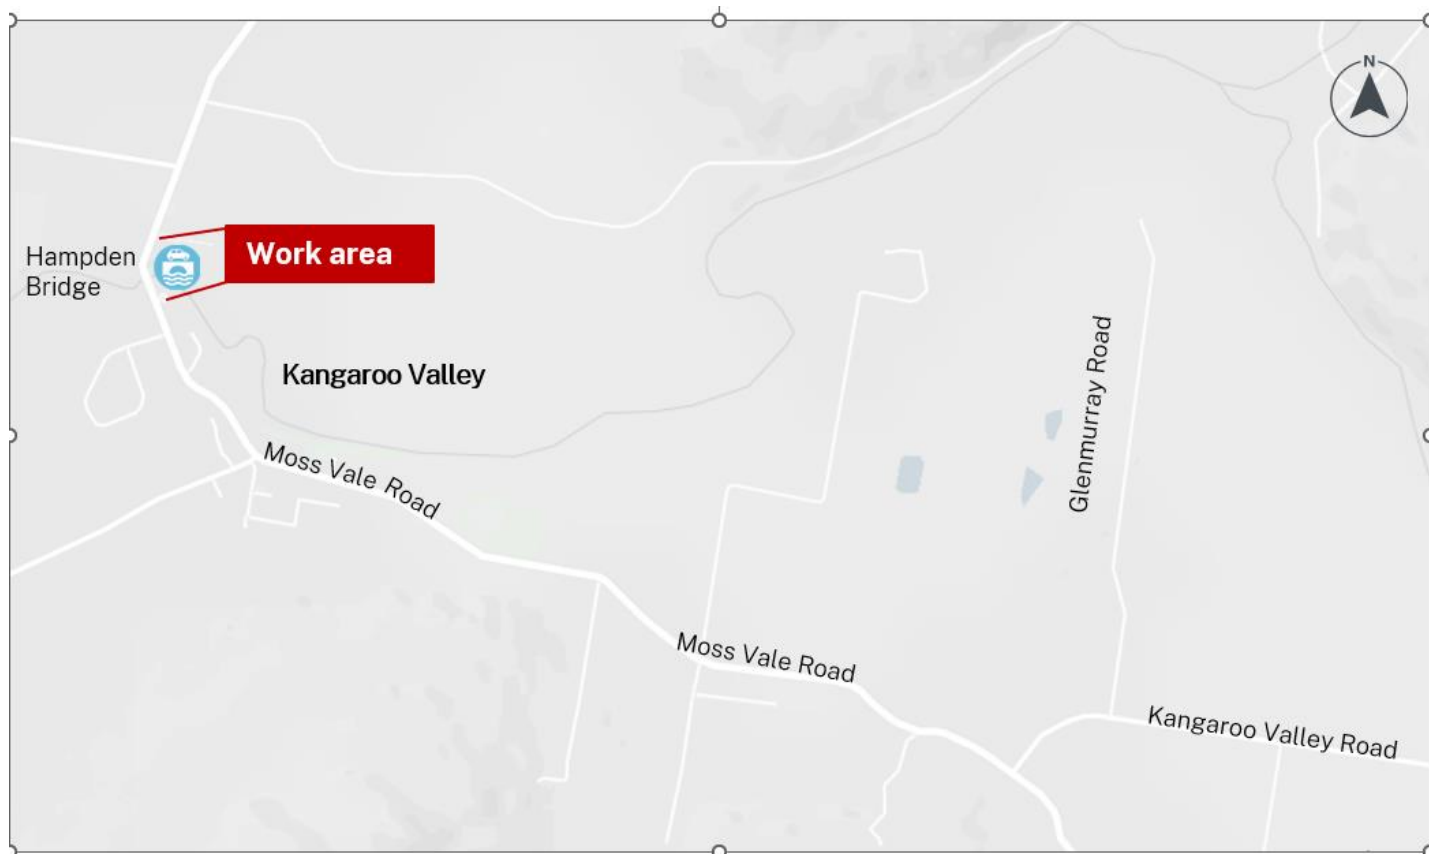

During work, single lane closures, stop/slow traffic control and a reduced speed limit of 40 km/h will be in place for the safety of workers and road users.

The site will be managed under traffic control.

Transport thanks the community for their patience while work is carried out.
