

# Construction update

## Heathcote Road Upgrade

June 2025

Transport for NSW acknowledges the Cabrogal people of the Darug Nation as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

We are continuing work on the Heathcote Road Upgrade between Infantry Parade, Holsworthy, and The Avenue, Voyager Point. This project will reduce congestion, improve road safety and provide more reliable journeys for all road users.

### Williams Creek road bridges

Following the successful opening of the new eastbound road bridge across Williams Creek, we have almost completed the new westbound road bridge.

We will open the new westbound bridge to traffic on **6 July 2025**, weather permitting.

### Harris Creek road bridges

We have opened the new eastbound road bridge over Harris Creek after successfully removing the existing bridge.

We have made significant progress on the new westbound road bridge, which we expect to open to traffic later this year.

### Landscaping

We continue to landscape along Heathcote Road, particularly near the intersection with The Avenue and MacArthur Drive. We will plant additional native plants in the coming months.

### Traffic lane shifting

We will direct traffic onto the newly constructed sections of road through a series of planned lane changes.

Our crews will set up partial lane closures and manage traffic to keep workers and road users safe. These changes will occur at night to minimise daytime disruptions.

### Night work program

Our night work may be noisy at times. However, we will schedule louder activities before midnight whenever possible to reduce disruption to nearby residents.

Equipment and machinery used during night work may include:

- generators and lighting towers
- excavators, asphalt vehicles and rollers
- street sweepers
- concrete trucks and pumps
- powered hand tools.

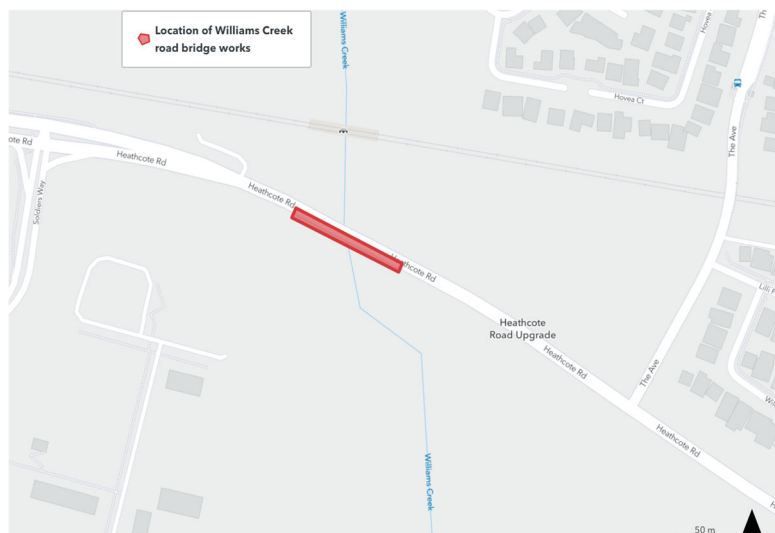

### Graffiti removal and deterrence

We understand the community's concerns about graffiti on the noise walls between Infantry Parade and MacArthur Drive and regret that this has occurred. Please be assured we are actively working to remove it.

The wall has been treated with an anti-graffiti coating and features heritage-themed artwork. We will also plant trees and shrubs in front of the wall to help prevent further vandalism and improve the look of the area.
