

Heathcote Road Essential Slope Remediation

Community Update

July 2025

Transport for NSW acknowledges the Dharawal people as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

Transport for NSW is realigning 280 metres of Heathcote Road in Engadine, to provide a safe and efficient journey for road users.

Work continues on cutting into and stabilising the rock face, where the new road alignment will be constructed, and upgrading drainage.

Heathcote Road will continue to be closed at various times between New Illawarra Road and Princes Highway until the end of July 2025, weather permitting.

Weekend access

There may be opportunities to open Heathcote Road between **8am Saturday and 8pm Sunday** throughout July, to help support smoother traffic flow and community travel.

Transport will continue to provide weekly updates on weekend openings through:

- The Live Traffic NSW App, [livetraffic.com](https://www.livetraffic.com) or by calling 132 701
- Transport for NSW Facebook page
- Electronic message signs near the closure points

We encourage residents and road users to check these channels each week for the latest closure information.

Detour during closures

A detour will be in place via New Illawarra Road, Bangor Bypass and Princes Highway during all closures of Heathcote Road. Please see the detour map on page 2.

Access to Forum Drive will be maintained during the road closures.

What will this mean for you?

- Detour in place and extended travel time
- Workers and vehicles in the area
- Noise from machinery and equipment.

Managing our impacts

We aim to reduce impacts to the community and environment where possible, including:

- Notification of closures, real time updates through electronic message signs and Live Traffic NSW updates.
- Reducing noise, turning off equipment when not in use and stopping work for respite periods.

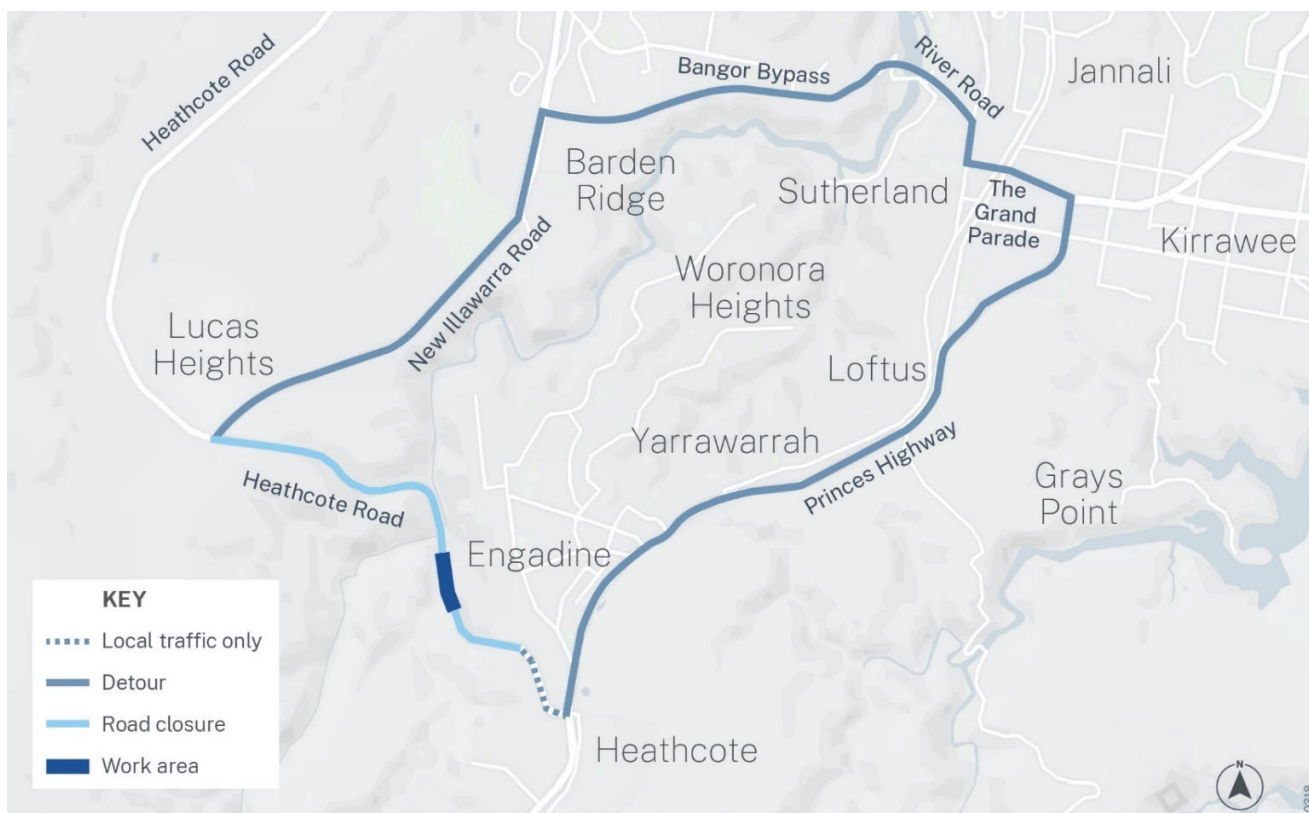

Access for National Parks and Wildlife Services and emergency services will be maintained during the road closures.

Please allow additional travel time when planning your journey and check [Livetraffic.com](https://www.livetraffic.com) or call 132 701 for the latest updates on traffic conditions and road closures.

Thank you for your patience while we carry out this essential work as quickly and safely as possible.
