

Construction work on Hill Road

Wednesday 1 October to Sunday 30 November 2025

Hill Road Upgrade

September 2025

Transport for NSW is upgrading Hill Road between Parramatta Road and Bombay Street to the south and Old Hill Link to the north to improve connectivity to Carter Street Precinct, Sydney Olympic Park and surrounding areas.

The program is funded as part of the \$140 million Housing Acceleration Fund (HAF) by Department of Planning, Housing and Infrastructure.

What work are we doing?

Construction work from **Wednesday 1 October to Sunday 30 November 2025** includes:

- continuing widening work on the M4 Western Motorway off-ramp, eastbound off-ramp and Parramatta Road slip lane
- utility investigations and adjustments
- soil testing and clearing vegetation
- constructing retaining walls on public and private property
- installing crash barriers on Hill Road under the M4 Western Motorway underpass (western side)
- conducting pavement and bulk earthworks
- improving stormwater drainage
- traffic signal work at Hill Road and Parramatta Road intersection
- asbestos removal and remediation work.

When we will be working?

Work will be carried out from **Wednesday 1 October to Sunday 30 November 2025**, from **Monday to Friday, 7am to 6pm and Saturday, 8am to 1pm**, weather permitting. We will not work on Sundays and public holidays.

Out-of-hours work

Out-of-hours work will also be required for up to **five nights** each week between **6pm and 7am** the next day, weather permitting.

What will this mean for you and how we will manage it?

Some work needs to be carried out at night to minimise disruption to traffic and reduce safety risks for our workers, pedestrians, cyclists and motorists. Night work will involve some machinery that generates noise and vibration. We will make every effort to lessen the disturbance where possible, completing noisier work earlier in the evening and turning off vehicles and equipment when not in use.

Traffic impacts

There will be temporary traffic changes to make sure the work zone is safe. This will include lane closures, stop/slow, contra flow and a reduced speed limit of 40km/h. Please keep to speed limits and follow the direction of traffic controllers and signs.

Pedestrian and cyclists detours

Temporary pedestrian access closure at Hill Road (eastern side) took effect from **Wednesday 17 September 2025** for up to six months. During this time we are working to identify and move utilities in the area.

This work is to prepare for the road widening activity as part of the project. Full details of this detour are available on our project webpage and are shown on the map on page one.

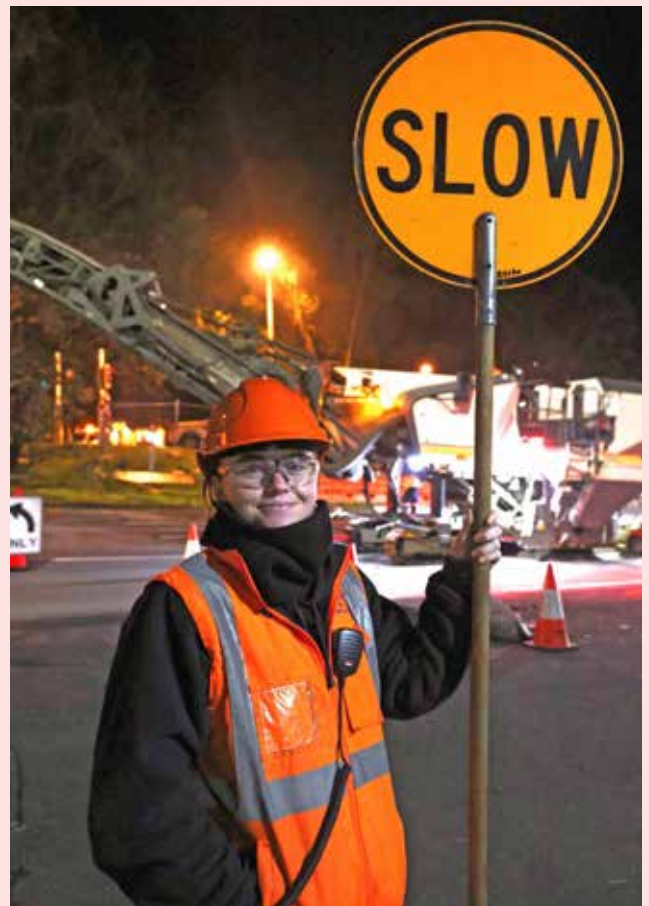

Parking space removal

Thank you to residents, impacted businesses, and the community for your feedback during the recent consultation. Based on this process, three parking spaces on the northern side of Carter Street will be removed to support the widening of Hill Road and improve the Hill Road and Carter Street intersection.

We acknowledge that road closures and night works may be disruptive and are working to minimise impacts wherever possible. Your cooperation helps us deliver safer, more efficient roads for the community.

Safe speed around construction site

With ongoing upgrades along Hill Road and other developments in construction nearby to our site, it is important to adhere to speed limits in the area. A reduced speed limit of 40km/hr is in place for the safety of road users and to keep our workers safe as we carry out the work.

Reducing the speed limit around construction zones give drivers more time to react to unexpected changes in or near the roadway keeping them and our workers safe.
