

# Investigation works for Hill Road Upgrade starting 28 January 2025

## Hill Road Upgrade between Parramatta Road and Old Hill Link

January 2025

Transport for NSW pays respect to the Wangal people of the Dharug people as the Traditional Custodians of the lands on which we work and pays respects to Elders past and present.

Transport for NSW is upgrading Hill Road between Parramatta Road and Bombay Street to the south and Old Hill Link to the north to improve connectivity to Carter Street Precinct, Sydney Olympic Park and surrounding areas.

### What work are we doing?

Small crews will be working within the site area carrying out investigation work along the footpath, road and site compound area at 1-5 Hill Road:

Work includes:

- non-invasive survey and pavement dilapidation surveys
- potholing and coring investigation work involving saw cutting the road and footpath
- demolition of a building and preparation for a new site compound
- minor site establishment works
- mobilising construction equipment into the site compound.

### When and where we'll be working

Investigation works will be carried out from **28 January to 28 February 2025** between **7am to 6pm, Monday to Friday** weather permitting.

Out-of-hours work will also be required over nine shifts for up to **five nights each week**, from **Monday to Friday between 6pm and 7am the next day**.

Work will be carried out at Hill Road, the M4 Motorway off-ramp, Parramatta Road and Birnie Avenue in Lidcombe, as shown on the map.

Main construction works will start in March 2025.

### Traffic impacts

Traffic control will be in place with some minor disruptions expected during night work.

Pedestrian access will be maintained. Road users and pedestrians are advised to follow the directions of signs and traffic control.

### Managing our impacts

Equipment will include vacuum trucks, core drill, saw cutter, traffic control trucks, waste removal trucks and light vehicles.

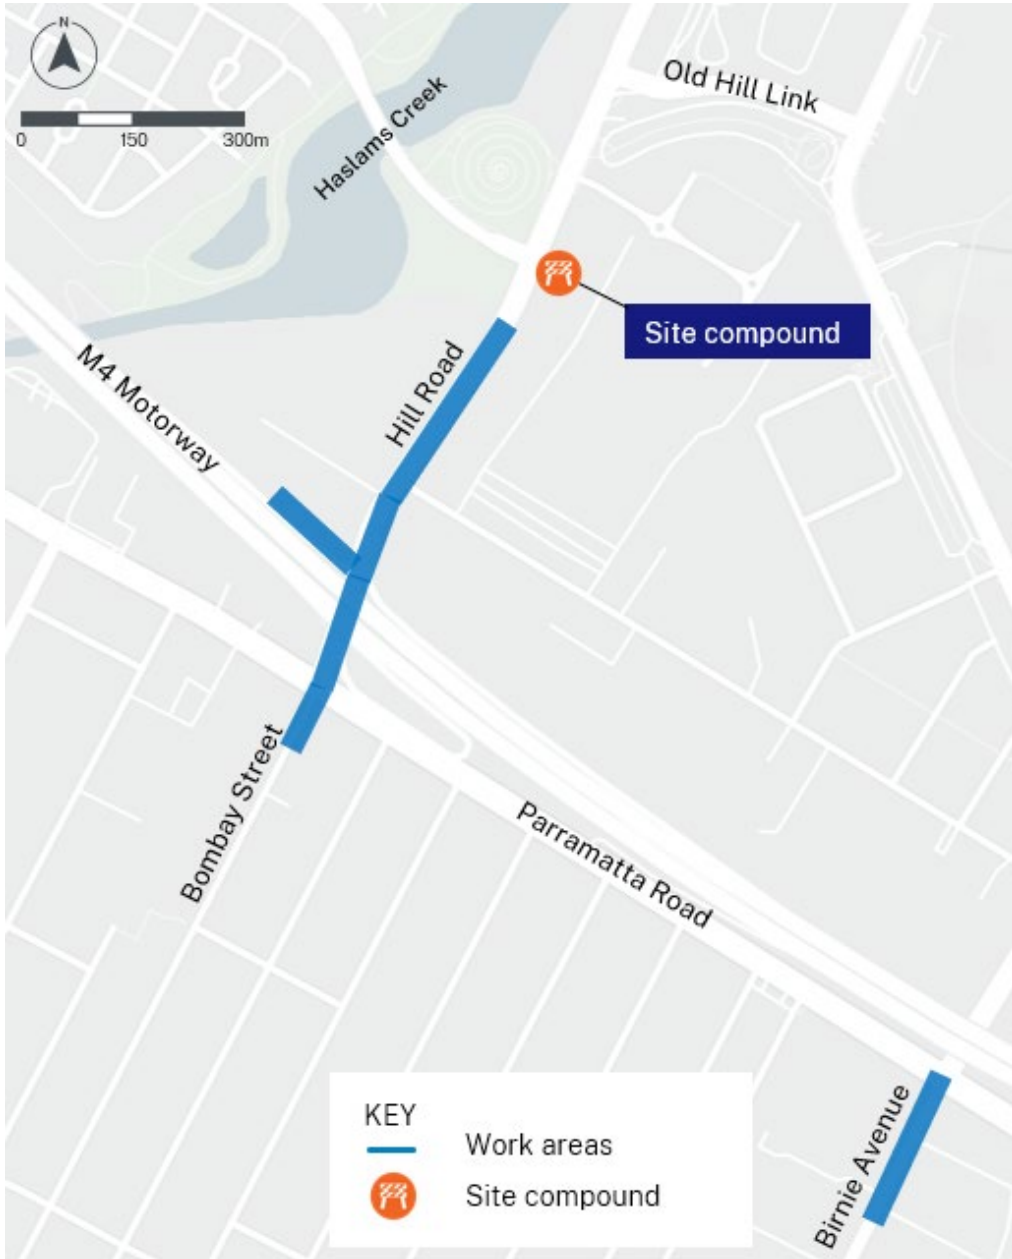

Demolition will be completed by a licensed demolition contractor.

We aim to manage our work to limit impacts to the community, residents and the environment.

This includes maintaining pedestrian and property access, dust suppression, removal of waste, turning off machinery when not in use, and completing noisier work by midnight where practicable.
