

Jervis Bay Road intersection upgrade

Princes Highway upgrade program

Construction update – August 2025

July 2025

Transport for NSW acknowledges the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

The Australian and NSW governments are investing in an upgrade to the Princes Highway and Jervis Bay Road intersection at Falls Creek.

What work are we doing?

During August, work will continue including:

- ongoing major earthworks
- importing material for embankment construction
- progressing the retaining walls on both the north and south sides of Jervis Bay Road, which form the foundation of the new bridge
- completing remaining electrical relocations
- placing topsoil to prepare for revegetation work to be carried out progressively in completed work areas
- installing new drainage across the site
- kerb construction
- building road surfaces on parts of the Princes Highway, Jervis Bay Road, Old Princes Highway and Willowgreen Road
- ongoing construction of the eastern access road
- construction of the new eastern roundabout
- installing and/or relocating safety barriers and signage.

When we'll be working

From **Friday 1 to Sunday 31 August 2025** our standard work hours will be Monday to Friday between 7am and 6pm, and on Saturdays between 8am and 1pm.

Night work will be carried out for up to 10 shifts each month between 6pm and 6am (work may continue in off road work areas until 7am), with the following nights scheduled for work during August 2025:

- **Wednesday 6 and Thursday 7 August**
- **Wednesday 13 and Thursday 14 August**
- **Wednesday 20 and Thursday 21 August**
- **Wednesday 27 and Thursday 28 August.**

All work is subject to weather conditions. We will keep the community informed of any changes.

Temporary traffic changes

During work hours there will be some temporary traffic changes to ensure the work area is safe. Lane and shoulder closures as well as reduced speed limits of 60 km/h or 40 km/h may be in place on the Princes Highway, Old Princes Highway, Jervis Bay Road, Willowgreen Road and Gardner Road.

Some of the road surface, signage and barrier movement work will be done during night shifts to minimise impacts to road users during peak times, resulting in lane closures where vehicles will be directed under traffic control.

Motorists are advised to drive to conditions and follow the directions of signs and traffic control.

During night work, motorists are advised to allow an extra five minutes' travel time.

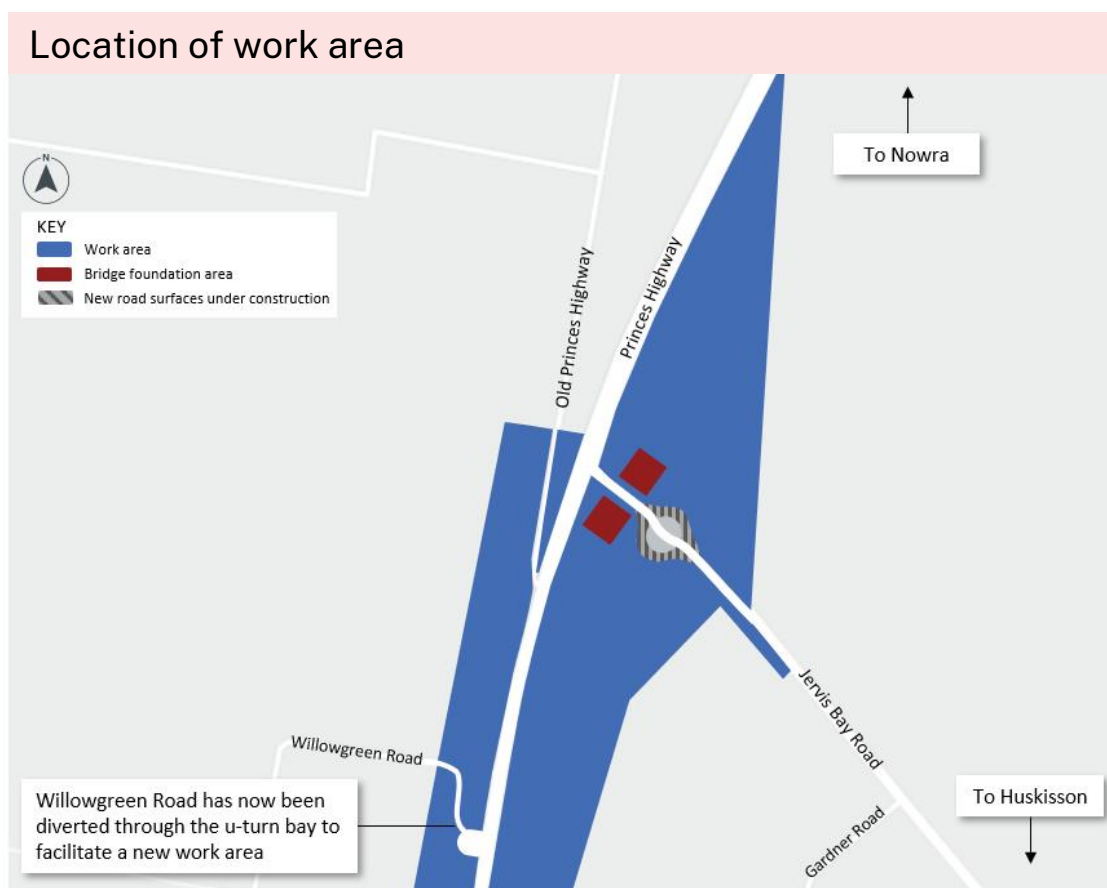

What will this mean for you?

Some activities need to be carried out at night to minimise traffic disruptions and reduce safety risks to our workers and road users.

We will not work more than two consecutive nights in the same area.

Our work may be noisy at times and there may be construction lighting in use, however we will do everything we can to minimise these impacts. This includes using non-tonal reversing beepers on equipment, turning machinery and lighting off when not in use and carrying out noisier works early during the night shift.

Transport for NSW thanks the community for their patience during this time.

Contact us

For questions and enquiries please use the contact details below. The project does not have a community display centre, however we are happy to arrange face-to-face meetings on request.
