

Kingsford to Centennial Park Walking and Cycling Improvements

Start of work – Doncaster Avenue and Anzac Parade, Kensington

August 2025

Transport for NSW acknowledges the Bidjigal and Gadigal people as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

Transport for NSW is converting an existing section of the Kingsford to Centennial Park cycleway from a shared path to an on-road, separated cycleway.

From **Sunday 24 August** we are starting work on Doncaster Avenue through the intersection at Anzac Parade.

As part of this upgrade, the existing right-turn movement from Doncaster Avenue (southbound) onto Anzac Parade will be removed.

We appreciate your ongoing support as we work to deliver a safer and more connected active transport network for people walking, cycling and using the road.

When and where we'll be working

We'll be working along Doncaster Avenue at the intersection of Anzac Parade for up to **22 nights** between **Sunday 24 August** and **Thursday 9 October**, weather and site conditions permitting.

Our work hours will be between **7am to 5pm, Monday to Friday** and **7pm to 5am, Sunday to Thursday**.

Some of our work needs to be carried out at night to minimise traffic disruption and reduce safety risks to workers and motorists.

We will not work on Friday night, Saturdays, or public holidays.

If you have any queries about our work activities, please contact our delivery partner, **Ward Civil**.

Location of work area

What will this mean for you?

Our work will include:

- setting up temporary traffic management around our work site, including traffic controllers, electronic signs and line marking
- temporarily removing three parking spaces within the work zone
- placing temporary barriers, ramps and boards over work areas
- milling and resurfacing the road

- saw cutting kerbs and installing new footpath ramps
- installing cycleway separators
- painting new line marking and installing new signage

While we carry out this work you may notice:

- workers and vehicles
- traffic controllers and signage
- noise from machinery and equipment
- fenced temporary work areas for safety and security
- temporary lane closures and reduced speed limits
- pedestrian and cyclist detours around work

Managing our impacts

We will do everything we can to minimise our impacts including:

- completing noisiest tasks (saw cutting and jack hammering) by midnight.
- using quieter equipment where possible
- installing noise curtains
- reducing our noise as much as possible

We will liaise directly with nearby residents and businesses to minimise impacts.

We'll set up traffic control to ensure safety for workers, people walking and cycling and vehicles using the road.

Please follow the instructions of traffic controllers and signs during this work.

What changes are happening?

- extending on-road cycleway through the intersection
- relocating a disabled parking space and removing two parking spaces on the northern side of Doncaster Avenue
- removing the southbound right-turn from Doncaster Avenue into Anzac Parade
- removing the shared path
- adjusting kerbs and installing new footpath ramps
- changing traffic light sequencing

More information on the changes, the previous notifications and consultation summary, can be found on the project webpage.

Benefits

- provides the safest arrangement for all road and footpath users and minimises conflicts between people walking and riding bikes
- allows people riding bikes to safely continue on the cycleway through the intersection
- allows the through lanes to be widened to better accommodate vehicle turning movements at Anzac Parade
- maintains parking and loading zones on the western side of Doncaster Avenue
