

# King Street Cycleway

## Project Update

August 2025

Transport for NSW acknowledges the Gadigal people as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

Work is progressing well on the King Street Cycleway with the first stage of road widening between Clarence and York Street now complete.

The next phase of work includes reinstating the kerb along King Street between Clarence Street and York Street.

This kerb was previously removed and is being reused where possible to preserve the street's heritage character.

Kerb on King Street to be reinstated

### Upcoming night work

We will continue night work throughout August, from **Sunday to Thursday**, between **8pm and 5am** on **King Street** between **Clarence and York Streets**.

The work we'll be completing includes:

- Reinstating the kerb
- Utility relocation and upgrading the stormwater drain
- Excavating, jack hammering and saw cutting into the road and footpath
- Restoring the footpath once the work is complete

Noisier work will be completed before **midnight**. Further weekend work will be required, and businesses and the wider community will be informed ahead of this work taking place.

### What will this mean for you?

To carry out this work, we'll be using machinery to cut into the road, using jack hammers, concrete saw cutters and excavators.

You may notice:

- Construction workers and vehicles
- Noise from machinery and equipment
- Traffic controllers and signage in place to guide pedestrians and motorists
- Temporary lane closures and reduced speed limits along King Street
- Temporary footpath closures near the corners of Clarence Street and York Street

### Managing our impacts

We aim to minimise the impact of our work on the community and surrounding environment by using noise blankets and scheduling noisier activities before midnight, directing lighting away from nearby properties to limit light spill, and installing fencing and barriers to maintain safety around the work areas.

## Staying up to date

The best way to be kept informed about the project is by signing up to the project email distribution list. Please visit our website to subscribe [transport.nsw.gov.au/king-street-cycleway](https://transport.nsw.gov.au/king-street-cycleway)
