

Transport for NSW

King Street Cycleway

October 2025

Transport for NSW acknowledges the Gadigal people as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

Construction on the King Street Cycleway has been temporarily delayed due to unexpected utilities in the area. Once these utilities have been safely managed, we'll be able to continue with work.

While there is currently no major construction taking place, some site cleaning may occur during night hours between Clarence and York Streets.

What work is coming up?

Work will resume in **Stage 1** (between Clarence and York Streets), followed by:

- **Stage 2:** York Street to Pitt Street
- **Stage 3:** Pitt Street to George Street

Why is it taking longer?

King Street is a busy and complex road with many utilities. Coordinating safe access to these utilities is essential before we can move forward with construction.

What this will mean for you?

You may notice workers attending the site for cleaning or inspections with traffic controllers and signage in place for short durations.

We will notify residents, businesses, and stakeholders before construction recommences, and provide further updates outlining the timing and staging of activities
