

New Lake Entrance Road and Pioneer Drive additional left turn lane – utility investigation work from 16 April

April 2025

Transport for NSW acknowledges the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

What work are we doing?

Initial utility investigations have shown additional work needs to be carried out as part of the planning for an additional left turn lane on the southern approach to the roundabout at New Lake Entrance Road and Pioneer Drive at Oak Flats.

Transport for NSW will carry out additional investigations while work to prepare a submissions report following consultation in September 2024 is being finalised.

Once investigations are completed, the submissions report will be released. This is expected to be in late 2025.

As part of the utility investigations, we will be drilling the pavement around the intersection of New Lake Entrance Road and Pioneer Drive at Oak Flats on **Wednesday 16 April and Thursday 17 April, between 7pm and 5am**, weather permitting. This will help us understand where utilities are located underground.

Timing of construction is yet to be confirmed.

How will this work affect you?

There will be temporary impacts to residents and motorists while we carry out this work.

You may notice:

- workers and vehicles
- traffic controllers and signage
- lane closures and reduced speed limits
- noise from machinery and equipment.

We will make every effort to minimise our impacts and complete this work as quickly as possible.

Traffic impacts

During work, single lane closures, traffic control and a reduced speed limit of 40 km/h will be in place for the safety of workers and road users.

Road users are advised to allow five minutes' additional travel time, drive to the conditions, and follow the directions of signs and traffic control.

Access to residences will be maintained at all times during work.
