

Safety improvement work at Pacific Highway and College Crescent, Waitara

Community Notification

May 2025

Transport for NSW acknowledges the Darug and GuriNgai peoples as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

Transport for NSW is improving pedestrian safety at the intersection of Pacific Highway and College Crescent, Waitara. This work is being completed as part of the Road Safety Program.

Work will start from **Wednesday 28 May** and is expected to be complete by **Friday 27 June 2025**.

Road Safety Program

The Road Safety Program aims to improve safety and reduce crashes on NSW roads. The Pedestrian Protection Sub-Program aims to improve protection for vulnerable road users, particularly on urban footpaths, shared pathways, cycleways and road crossings.

Since 2020, the Australian and NSW governments have invested more than \$500 million into road safety projects across NSW as part of the Road Safety Program.

What work are we doing?

We will be upgrading the traffic signals on **Pacific Highway** at its intersection with **College Crescent, Waitara**.

These upgrades started in 2024, however one of the posts required additional design due to underground services. We will now complete the final post upgrade and restore the road and footpath surfaces. Please refer to the location map over the page.

Our work will include:

- relocating traffic signal post and footings

- installing new arrow lanterns to allow pedestrians to cross safely while motorists are held on the red arrows
- restoring the road surface and line marking.

When and where we'll be working

We will be onsite for up to **six nights** between **Wednesday 28 May** and **Friday 27 June**, weather and site conditions permitting.

Our work hours will be between **8pm** and **5am** from **Sunday** to **Thursday**.

We will not work on Fridays, Saturdays, or public holidays.

Our work needs to be carried out at night to minimise traffic disruption and reduce safety risks to workers and motorists.

If you have any concerns about our work schedule, or the work activities, please contact our delivery partner, ConnectSydney, as detailed over the page.

What will this mean for you?

You may notice:

- workers and vehicles
- traffic controllers and signage
- lane closures and reduced speed limits
- pedestrian detours with traffic controllers on site to guide you
- noise from machinery and equipment.

Managing our impacts

This includes:

- reducing our noise as much as possible
- turning off equipment when not in use
- positioning equipment away from homes and businesses
- completing noisier tasks by midnight.
