

# Rail Service Improvement Program

## Newtown to Redfern Signalling Upgrade

July 2025

Transport for NSW acknowledges the Gadigal people of the Eora Nation as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

The Rail Service Improvement Program enables a safer, more equitable, and integrated transport network where people can travel more safely, reliably, and efficiently across NSW.

In July, we will be working within the rail corridor at Erskineville to upgrade signalling and rail infrastructure.

### What work are we doing?

Work includes:

- Relocating and installing signalling infrastructure
- Installing and terminating signalling and other communication cables
- Installing rail infrastructure including track insulated joints.

### When and where we'll be working

We'll be working within the rail corridor between Erskineville and Macdonaldtown stations and at our site compound on Railway Parade, Erskineville.

Standard working hours are **7am to 6pm, Monday to Friday and 7am to 1pm, Saturday.**

### Out of hours work

Due to safety requirements, some work is required to take place outside of standard construction hours. This work will take place between **6pm Wednesday 2 July and 1pm Monday 7 July 2025.**

### What will this mean for you?

You may notice:

- An increase in workers and vehicles
- Increased noise from machinery and equipment.

### Managing our impacts

We understand construction activities may cause disruption to our closest neighbours, and every effort will be made to minimise impacts where possible.

This includes:

- Locating equipment as far away from residents as possible
- Ensuring lighting towers are directed downwards and away from residents
- Compliance with strict environmental conditions relating to noise.
