

Safety repair work continues on Scabbing Flat Bridge

August 2025

Transport for NSW acknowledges the Wiradjuri people as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

Essential safety maintenance and repair work continues on Scabbing Flat Bridge. Load limits and width restrictions remain in place to ensure the safety of all road users and to enable further works to progress.

What work are we doing?

We are currently completing the downstream truss work, which is scheduled to be finished by the end of July. Once that's done, the Bailey Bridge will be reinstalled on the upstream side to allow us to safely dismantle the upstream truss.

A crane and work crew will need to be on the bridge to complete this work, requiring temporary closures to all traffic.

When will the bridge be closed?

The bridge will be **closed** between **9am and 3pm** every **Tuesday and Wednesday** from **Tuesday 5th August to Wednesday 27th August**, weather permitting.

Please note that additional closures may be required for ongoing repairs, and we will notify you in advance.

What will this mean for you?

Bridge works will be conducted with traffic controllers present during working hours.

Work will continue to take place **Monday to Friday** between **7am and 5pm**.

During the closure times outlined above, all vehicles can follow the detour routes listed.

Load and width restrictions

A 16-tonne load limit continues to be in place on the bridge and heavy vehicles will need to use the detour routes at all times unless prior approval has been provided to travel across the bridge.

Additionally, due to the Bailey bridge being installed, **a width restriction of 3.4 metres and a 20km/h speed limit while crossing the bridge will remain in place** until the bailey support has been removed.

Detour routes

Detour via Wellington:

- Allow up to 25 minutes of extra travel time
- Detour via Renshaw McGirr Way/Suntop Road/Arthurville Road.

Detour via Dubbo:

- Allow up to 45 minutes of extra travel time
- Detour via Obley Road/Benolong Road/Terrabella Road/Arthurville Road.

We encourage all motorists to allow for additional travel time depending on your destination. A detailed map of the detour routes is included over the page for your reference.
