

# South West Sydney bus changes

## Frequently Asked Questions

September 2025

Transport for NSW acknowledges the Gadigal people of the Eora Nation as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

On Sunday 14 September, Transport for NSW (Transport) will introduce changes to some bus services across South West Sydney.

The changes are being communicated to passengers, communities and stakeholders, to ensure they understand the changes and how best to travel.

### Why are these bus services changing?

Transport is making these changes to enhance the passenger experience across the network, to improve reliability and connectivity.

### What are the changes?

The bus changes are mostly timetable adjustments and include:

| Route | Service changes   |
|-------|---|
| 901   | <ul style="list-style-type: none"><li>Timetable changes to improve reliability.</li></ul>                               |
| 902   | <ul style="list-style-type: none"><li>Timetable changes to improve reliability.</li></ul>                               |
| 902X  | <ul style="list-style-type: none"><li>Timetable changes to improve reliability.</li></ul>                               |
| 903   | <ul style="list-style-type: none"><li>Timetable changes to improve reliability.</li></ul>                               |
| 904   | <ul style="list-style-type: none"><li>Timetable changes to improve reliability.</li></ul>                               |
| 905   | <ul style="list-style-type: none"><li>Timetable changes to improve reliability and more services on weekends.</li></ul> |

|     |   |
|-----|---|
| 906 | <ul style="list-style-type: none"><li>Timetable changes to improve reliability.</li></ul>   |
| 907 | <ul style="list-style-type: none"><li>Timetable changes to improve reliability.</li></ul>   |
| 908 | <ul style="list-style-type: none"><li>Timetable changes to improve reliability.</li></ul>   |

| S3  | <ul style="list-style-type: none"><li>Timetable changes to improve reliability.</li></ul>   |
| S5  | <ul style="list-style-type: none"><li>Timetable changes to improve reliability.</li></ul>   |

## Will there be changes to school services?

There will be changes to dedicated school bus services. Students who catch regular bus routes may also have changes to their journey.

Transport and our bus operators are working closely with schools that may be impacted by these changes, to ensure students and their communities are aware of the changes, and how they need to adjust their journeys. We encourage students to plan before they travel.

## Will I have to interchange?

Some trips may require an interchange, however we encourage passengers to plan their trip in advance using Transport's Trip Planner.

Interchanging is part of any world class transport network, as it is not always possible to provide direct services to and from all locations.

Interchanging simplifies operations and allows services to run more often.

## Will bus shelters or bus stops be upgraded or changed?

No. There will not be any changes made to existing bus shelters as part of these adjustments.

## What consideration is given to passengers before any of these changes are made?

When planning these bus changes, we have considered what will deliver the best outcomes for the majority of passengers.

We do this through the analysis of Opal data, passenger travel patterns and feedback which demonstrates where and when passengers are travelling, as well as how travel needs are likely to change in the future.

## Did you consult on these service changes?

Transport has not conducted formal consultation on these changes, but we are committed to providing detailed information about what is changing.

In planning these changes, we focused on delivering the best outcomes for the majority of passengers. This approach included analysing Opal data to understand current travel patterns and forecast travel needs.

Transport will use a variety of channels to ensure the community understands the changes and how best to plan their journeys and is dedicated to providing the best possible services, and we continually monitor the bus network to identify further improvement opportunities.

## What does this mean for my journey?

These changes mean that your trip may be different. We encourage passengers to check timetables before travelling.

## Will any Zero Emission buses be introduced as part of these changes?

The NSW Government has committed to transitioning the state's fleet of 8,000 plus buses to Zero Emission technology.

The first stage of the transition is underway and will introduce 1,200 new electric buses for Greater Sydney passengers by 2028. As part of the first stage, 11 existing bus depots will be converted to battery electric technology to support the new battery electric bus fleet and a new bus depot will be built in Macquarie Park.

Along with planned new electric buses and those already in service, around 1,700 zero emission buses are expected to be operating on Sydney roads by the end of 2028.

## Will bus services be accessible?

Yes, all buses on these routes will be accessible.

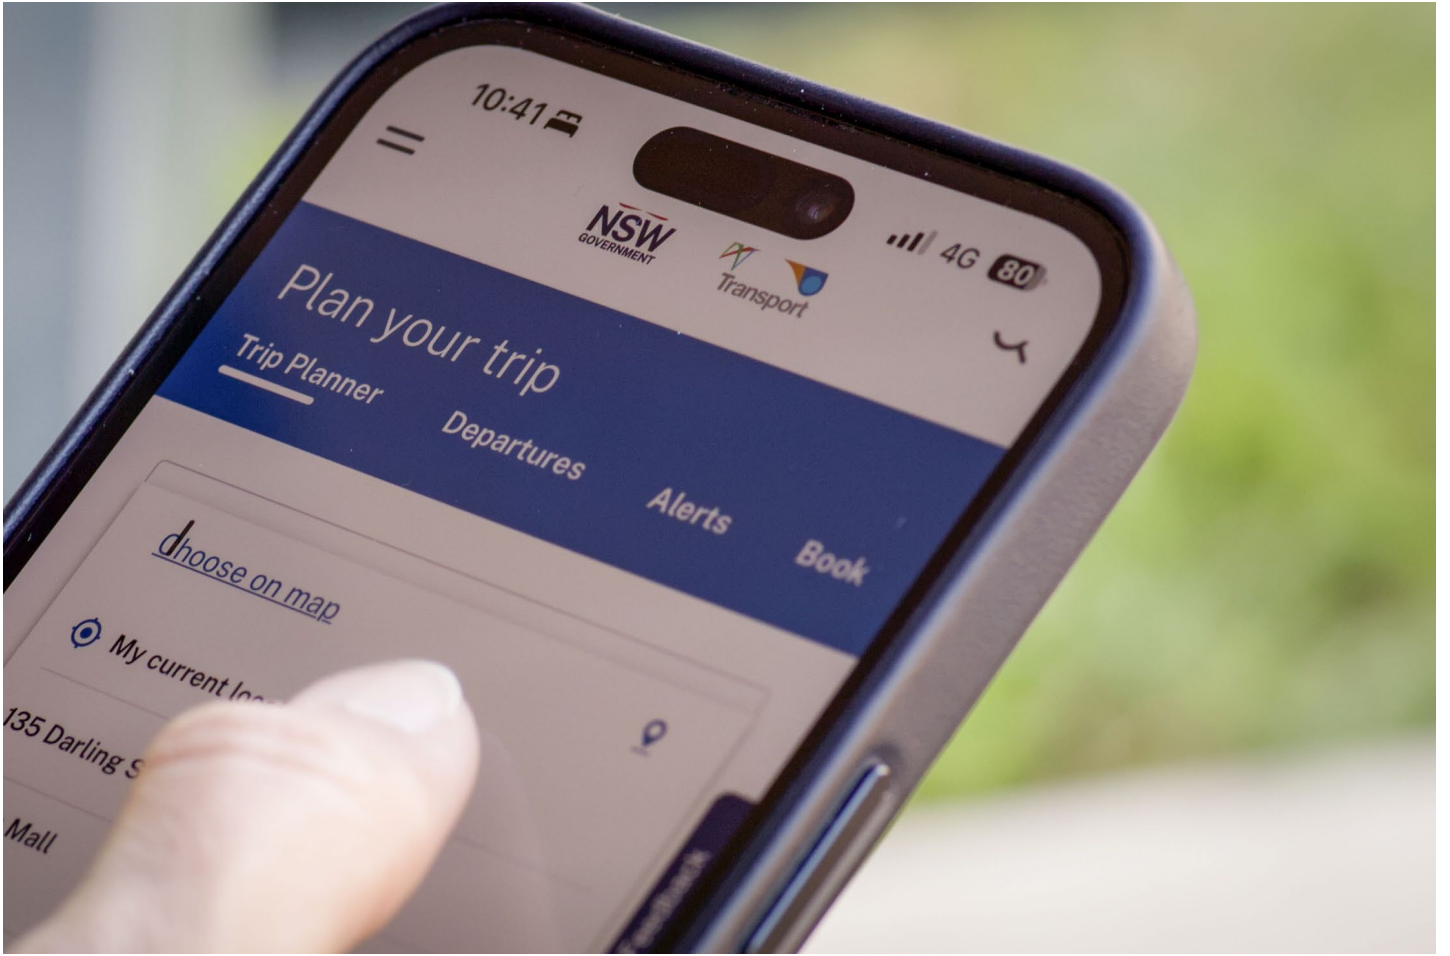

You can check on Transport Trip Planner [www.transportnsw.info](http://www.transportnsw.info) for more information.

## Where do I go for more information?

Please visit [transport.nsw.gov.au/buschanges](http://transport.nsw.gov.au/buschanges) to see what these changes mean for your travel.

## How do I provide feedback?

To provide feedback on Transport services, visit [transportnsw.info/contact-us/feedback](http://transportnsw.info/contact-us/feedback)
