

Night work on T C Frith Avenue, Boolaroo from Wednesday 16 April

Speers Point transport improvements

April 2025

Transport for NSW acknowledges the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

The NSW Government is carrying out road investigation work on T C Frith Avenue between Seventh and Third streets at Boolaroo.

What work are we doing?

Transport for NSW will carry out the work, including using machinery to drill into the road for pavement core testing and test pitting work. This will allow us to check the quality of the road pavement to help plan for future work.

When and where we'll be working

To minimise the impact on motorists, we'll be working on T C Frith Avenue on **Wednesday 16 April** from **6pm until 5am**.

We expect to complete the work in **one night**, weather permitting.

What will this mean for you?

The work will involve the use of machinery which generates some noise. We will make every effort to minimise noise by completing the noisiest activities by 11pm.

You may notice:

- workers and vehicles
- traffic controllers and signage
- lane closures and a reduced speed limit of 40km/h
- noise from machinery and equipment.

Managing our impacts

We aim to manage our work to avoid impacts to the community and the environment.

This includes:

- reducing our noise as much as possible
- targeted lighting to minimise light spill.

Thank you for your patience during this important work.
