

Upcoming work at Eddy Avenue Plaza

Sydney Terminal Building Revitalisation project – Stage 1

August 2025

Transport for NSW acknowledges the Gadigal people of the Eora Nation as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

The first stage in revitalising Central Station, improving public space, safety and connectivity.

From **Monday 25 August 2025**, we'll start work to demolish the former Central Squeeze building in the northern corner of Eddy Avenue Plaza. This work will make room for the hydrant boosters to be relocated from the main plaza.

What work are we doing?

- Switching off water and power supply to the building

- Removing interior lining, fittings and shop frontage
- Installing timber boxing around the stone column to protect it during construction
- Installing new fencing.

Out of hours work

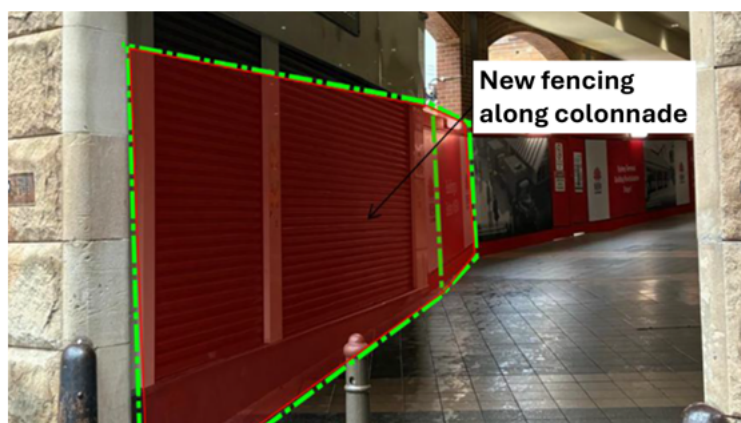

This work will be completed at night to help minimise any impacts on pedestrian access.

Work will take about **three nights** to complete between **9.30pm and 5.30am** from **Monday 25 August to Thursday 4 September 2025**. We do not work Friday evenings, Saturdays or public holidays.

Location of work area

Managing our impacts

We aim to minimise impacts to the community by:

- Fencing the work area for safety and security
- Reducing our noise as much as possible by turning off equipment when not in use
- Providing traffic controllers and signage to direct road users and pedestrians, as required.
