

Have Your Say | Proposed bus stop improvements on Woodstock Avenue, Mt Druitt

4 - 16 November 2024

Transport for NSW acknowledges the Darug people as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

Transport is proposing improvements to the bus stop on Woodstock Avenue at Mt Druitt under the Bus Priority Infrastructure Program to improve the reliability and efficiency of bus services, while easing congestion for all road users.

Background information

The bus stop (ID 2770106) located on Woodstock Avenue, Mt Druitt, just before Carew Street becomes muddy and hard to access in wet weather making it difficult for passengers when they get on or off the bus.

Transport would like to install a bus bay to allow vehicles to safely pass the bus when it is stopped. The bus bay will help manage traffic flow as buses can pull into a designated area to the side of the road allowing other vehicles to pass as the buses set down or pick up passengers. The bus bay will have a concrete base the length of the bus stop, there will also be improvements to the footpath, lighting and landscaping for the safety and convenience of passengers.

Proposed improvements

- build a bus bay on Woodstock Avenue just before Carew Street where the current bus stop is located
- build a concrete base for the bus stop
- create a footpath leading to the bus stop
- improve lighting and landscaping.

Benefits for all road users

The bus bay and associated work will:

- improve traffic flow along Woodstock Avenue
- improve the accessibility of the bus stop
- improve the safety and efficiency of bus services.

How to provide your feedback

Transport would like to hear your feedback on the proposal. Please contact us between **Monday 4 November** to **Sunday 16 November** using the details below:

- Phone 1800 684 490
- Email projects@transport.nsw.gov.au
- Visit www.nsw.gov.au/have-your-say
- Scan the QR code on the next page
