

Transport Access Program

Canley Vale Station Upgrade

Project Update

December 2020

Transport for NSW is improving accessibility at Canley Vale Station. The upgrade will provide a station precinct that is accessible to people with a disability or limited mobility, parents/carers with prams, and customers with luggage.

Upcoming work

Work activities in December include:

- relocation of station services, such as CCTV and lighting
- installation of hoarding on Railway Parade
- removal of the station entrance canopy on Railway Parade
- deliveries to the Railway Parade station entry by trucks (traffic control to assist when required)
- delivery of a concrete barrier to the station entry on Railway Parade on Monday 14 December between 5am and 7am

Equipment to be used includes trucks, grinder, elevated work platform, cranes and hand tools.

Access to Canley Vale Station is changing

From **Monday 14 December to mid-2021**, the main entrance to **Platform 1, the bus stop and sections of the footpath on Railway Parade** will be temporarily closed to enable construction work as part of the station upgrade. Hoarding will be installed around work areas, intermittent lane closures and pedestrian detours on Railway Parade will be in place when required. Traffic control will be on site to direct pedestrians around the work areas.

Access to both Platform 1 and the footbridge will be via the existing alternate accessible station entrance on Railway Parade. Please see map overleaf for location and pedestrian detours.

We apologise for any inconvenience and thank you for your patience while we carry out this important work.

Temporary bus stop relocations and parking impacts

The station bus stop on Railway Parade will be temporarily closed while station work is carried out from **Tuesday 15 December to mid-2021**.

Day time and school service buses will be relocated to Canley Vale Road across from Clifford Avenue. Night bus services and rail replacement buses will be relocated to Railway Parade, northeast of the alternate station entry.

Traffic control and signage will be in place to assist pedestrians and motorists around the work area when required.

Two timed parking spaces in front of 43 Canley Vale Road will be temporarily unavailable for the temporary bus stop relocation. Alternative parking is available on surrounding streets and in the public car park located on Fornasier Lane.

Please allow extra travel time and follow the instructions of traffic control staff and signage throughout the duration of this work. We apologise for any inconvenience caused and thank you for your patience while we complete this important work.

Please visit www.transportnsw.info or call **131 500** for up to date information regarding service updates and replacement buses during this time.

Pedestrian detour map

Night work in December 2020

For the safety of our workers, pedestrians and motorists, night work will take place during following hours for the removal and demolition of the canopy at the front station entrance on Railway Parade:

- from **6pm Tuesday 15 December** until **7am Wednesday 16 December 2020**
- from **6pm Wednesday 16 December** until **7am Thursday 17 December 2020**

One lane closure and a footpath closure will be in place while this work is carried out. Traffic control will be onsite to direct pedestrians and motorists.

Equipment will include trucks, elevated work platform, crane, franna and hand tools.

The work activities will be noisy at times. We apologise for the inconvenience and will minimise impacts by turning off vehicles and equipment when not in use, monitoring noise levels, using non-tonal reversing beepers and acoustic barriers.

Temporary holiday project closure

From **5pm Friday 18 December 2020** until **7am Monday 4 January 2021** our offices will be closed to provide the community and our workers with a break from construction work.

We wish you and your loved ones a safe and happy holiday season and look forward to working together to deliver the Canley Vale Station Upgrade throughout 2021.

Construction hours

Standard construction hours are **7am to 6pm Monday to Friday** and **8am to 1pm on Saturdays**.

For the safety of staff, rail customers and the community, some work will be completed outside standard construction hours. Nearby residents and businesses will be notified before any work outside these hours takes place.

Keep in touch

We will continue to keep you informed with regular project notifications and frequent online updates published to the project website www.transport.nsw.gov.au/canleyvale.

If you would like to be added to the project distribution list, or for more information on the Canley Vale Station Upgrade, please contact us on **1800 684 490** or email projects@transport.nsw.gov.au.

For all urgent enquiries or complaints regarding construction activities, please call our 24-hour Construction Response Line on **1800 775 465**.
