

Power Supply Upgrade

AC Feeder Upgrade Project – Birrong Station

Community Notification

October 2021

Project overview

The AC Feeder Upgrade Project is part of the Power Supply Upgrade which is designed to meet expected power requirements for Sydney's future rail network and new fleet of air-conditioned trains. The work involves upgrades to substations, section huts, overhead wiring and feeders as well as the construction of new infrastructure across the network.

Upcoming work

The AC Feeder Upgrade Project team will be carrying out service investigation work **inside the rail corridor at Birrong Station** from **6am to 6pm** on **Saturday 23 and Sunday 24 October 2021**. This work includes:

- Delivering materials to site and establishing a temporary work area
- Using a vacuum truck to identify underground services and utilities
- Backfilling to make good

Equipment to be used for this work includes a vacuum truck, other light vehicles and handheld power tools. A map showing the work area is on the next page.

What you may notice

Access to properties will be maintained at all times, and workers will not need to access private property.

Transport for NSW is committed to minimising any noise impact on the community. We switch off equipment when it is not being used, place equipment as far away from properties as possible and monitor our work activities to make sure noise levels are being managed effectively. Higher noise generating work is only expected to occur for short periods.

We apologise in advance for any inconvenience this work may cause.

Keeping the community informed

If you would like to speak with the project team about this work, please contact us through the details provided below. Thank you for your patience and understanding during this work.
