

Power Supply Upgrade

AC Feeder Upgrade Project – Bankstown

Community Notification

October 2021

Project overview

The AC Feeder Upgrade Project is part of the Power Supply Upgrade which is designed to meet expected power requirements for Sydney's future rail network and new fleet of air-conditioned trains. The work involves upgrades to substations, section huts, overhead wiring and feeders as well as the construction of new infrastructure across the network.

Upcoming work

We will be carrying out investigation work inside the rail corridor near **Weigand Avenue, Bankstown** from **6am to 6pm** on **Saturday 16 and Sunday 17 October 2021**. This work includes:

- Scanning the work area to identify underground services and utilities
- Drilling a geotechnical borehole
- Delivering materials to site

Equipment to be used for this work includes drilling equipment, vacuum trucks, ground penetrating radar, construction and other light vehicles, and handheld power tools.

What you may notice

Construction personnel, plant and equipment will be entering the site via the rail access gate on Weigand Avenue opposite 21 Weigand Avenue. Access to properties will be maintained at all times, and workers will not need to access private property. Traffic control and signage will be in place as needed to assist motorists, pedestrians and cyclists during our work.

Transport for NSW is committed to minimising any noise impact on the community. We switch off equipment when it is not being used, place equipment as far away from properties as possible and monitor our work activities to make sure noise levels are being managed effectively. Higher noise generating work is only expected to occur for short periods.

We apologise in advance for any inconvenience this work may cause.

Keeping the community informed

If you would like to speak with the project team about this work, please contact us through the details provided below. Thank you for your patience and understanding during this work.

This document contains important information about public transport projects in your area. If you require the services of an interpreter, please contact the Translating and Interpreting Service on **131 450** and ask them to call Transport for NSW on **1800 684 490**. The interpreter will then assist you with translation.
