

Power Supply Upgrade

AC Feeder Upgrade Project – Yagoona and Birrong

Community Notification

November 2021

Project overview

The AC Feeder Upgrade Project is part of the Power Supply Upgrade which is designed to meet expected power requirements for Sydney's future rail network and new fleet of air-conditioned trains. The work involves upgrades to substations, section huts, overhead wiring and feeders as well as the construction of new infrastructure across the network.

Upcoming work

The AC Feeder Upgrade Project team will be carrying out service investigation work at various locations within the rail corridor between Birrong Station and Yagoona Station between **7am to 6pm Tuesday 23 November to Thursday 23 December 2021, on weekdays only**. This work includes:

- Delivering plant and materials to each site
- Identifying any utility services using a vacuum truck
- Backfilling any trenches and ensuring the area is made safe.

Equipment to be used for this work includes a vacuum truck, other light vehicles and handheld power tools.

The work areas are shown on the maps on the next page.

Work to upgrade and replace poles will start early in 2022 and will be the subject of further notifications.

What you may notice

Transport for NSW is committed to minimising impact on the community. We switch off equipment when it is not being used, place equipment as far away from properties as possible and monitor our work activities to make sure noise levels are being managed effectively. Higher noise generating work is only expected to occur for short periods.

We apologise in advance for any inconvenience this work may cause.

Keeping the community informed

If you would like to speak with the project team about this work, please contact TfNSW through the details provided below. Thank you for your patience and understanding during this work.
