

Power Supply Upgrade

AC Feeder Upgrade Project – Revesby and Bankstown

Project Update – September 2022

The AC Feeder Upgrade Project is part of the Power Supply Upgrade which is designed to meet expected power requirements for Sydney's future rail network and the new fleet of air-conditioned trains. The work involves upgrades to substations, section huts, overhead wiring, and feeders as well as the construction of new infrastructure across the network.

Upcoming work

The AC Feeder Upgrade Project team will continue the work at various locations along **Polo Street, Bransgrove Road, Albert Street and Milperra Road, Revesby and Mons Street, Eldridge Road and Northam Avenue, Bankstown**. Work will also occur **in the rail corridor between Bankstown Station and Yagoona Station**.

From **Thursday 1 September 2022 to Friday 30 September 2022** work will be carried out **between 7am and 6pm Monday to Friday, and 8am to 1pm on Saturdays**. At each work area, prior to commencement of each stage, delivery of plant and materials and set up of safety barriers and traffic control will be carried out.

During September, the following activities are scheduled to be carried out:

- Vegetation trimming or removal to facilitate works
- Service investigations work
- Pre-drilling new pole hole locations and some pole installation work
- Identifying utility services using a vacuum truck
- Using an auger to pre-drill holes for new power poles including drilling or new earthing rods
- Temporary covers will be placed over, and temporary fencing will be placed around the holes to make it safe until the new power poles are installed
- Use of elevated work platforms and use of mobile cranes to safely lift poles into place
- Installing new power poles and removing some existing poles
- Stringing of conductors between the power poles.

These works are subject to site and weather conditions. You will be notified if any of the activities are conducted outside of these times. Please see the back page for upcoming out of hours and night work and the map of the work areas.

What you may notice

Transport for NSW is committed to minimising the impact on the community. We monitor our work activities to make sure noise levels are being managed effectively. At each work area, street parking will be unavailable one to two days prior to work commencing and while work is carried out. A partial lane closure may be in place closest to the work area. Access to properties will be maintained, however may be delayed for short periods of time. For your safety, please follow the direction of signage and traffic control. Thank you for your patience and understanding during this important work.

Out of hours and night work

During September, we will work at night and out of hours. This work will involve installing new power poles and stringing conductors, including the use of elevated work platforms, mobile cranes and hand tools.

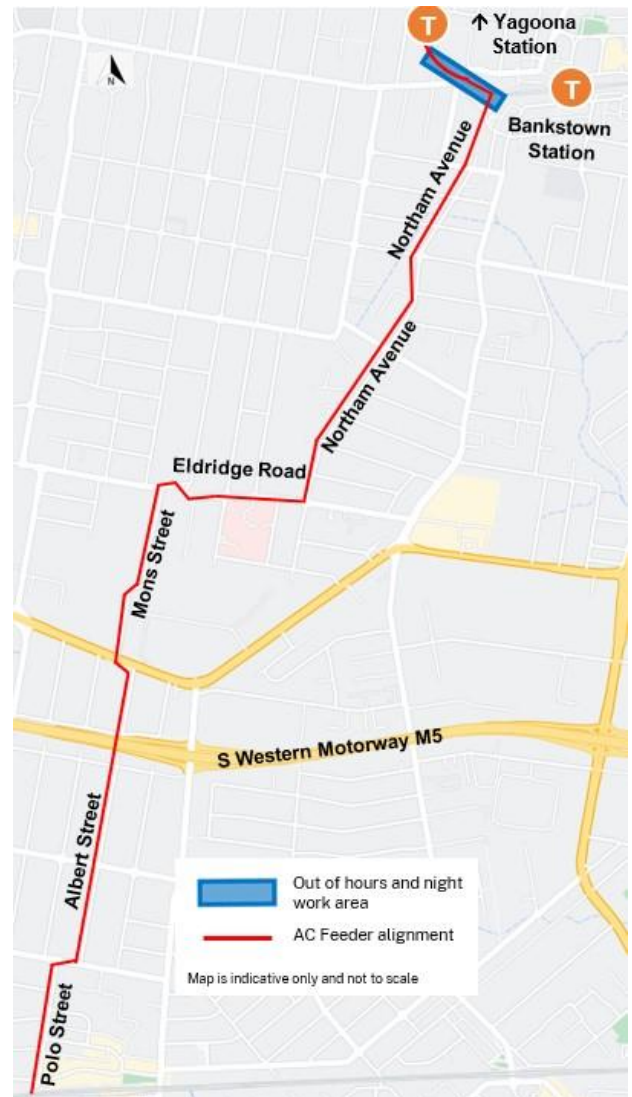

Out of hours work will be carried out between **7am and 6pm within the rail corridor between Bankstown Station and Yagoona Station on Saturday 24 September and Sunday 25 September 2022.**

To minimise impact to traffic, work at night will occur **near Bankstown Station** while the team carry out work to install new power poles and string conductors across **Marion Street**. This work will be carried out between **6pm and 7am on Thursday 29 September 2022.**

Work at night will also be carried out between **6pm and 6am at other locations along the Revesby and Bankstown AC Feeder alignment**. Residents near night work areas will receive more information about the work and what to expect in a future notification.

Night works may involve temporary partial lane closures and temporary removal of some kerbside parking spaces. Access to properties and businesses will be maintained, and short delays may be experienced. For your safety, please follow the direction of signage and traffic control.

Map of work areas

For the safety of workers, Ausgrid may schedule and notify for a power outage of up to 8 hours for out of hours and night work. We will coordinate with Ausgrid to restore power as soon as practicable and safe to do so. Please contact Ausgrid if you have any queries in relation to the power outage **13 13 88**. We apologise in advance for any inconvenience this work, or the power outage may cause.
