

Power Supply Upgrade

AC Feeder Upgrade Project – Revesby and Bankstown

Project Update – May to June 2022

The AC Feeder Upgrade Project is part of the Power Supply Upgrade which is designed to meet expected power requirements for Sydney's future rail network and new fleet of air-conditioned trains. The work involves upgrades to substations, section huts, overhead wiring, and feeders as well as the construction of new infrastructure across the network.

Upcoming work

The AC Feeder Upgrade Project team will continue carrying out work on the Power Supply Upgrade Project at various locations along **Polo Street, Bransgrove Road, Albert Street and Milperra Road, Revesby and Mons Street, Eldridge Road and Northam Avenue, Bankstown. Work will also occur in the rail corridor between Bankstown Station and Yagoona Station. From Monday 23 May 2022 to Thursday 30 June 2022 work will be carried out between 7am and 6pm Monday to Friday, and 8am to 1pm on Saturdays.** This work is subject to site and weather conditions. You will be notified if work will be conducted outside of these times. See map of work areas on the next page.

At each work area, prior to commencement of each stage, delivery of plant and materials and setting up of safety barriers and traffic control will be carried out.

Work activities

During May, the below activities will be carried out:

- Vegetation trimming or removal to facilitate works
- Service investigation work
- Pre-drilling new pole hole locations and some pole installation work

This work will involve:

- Identifying utility services using a vacuum truck
- Using an auger to pre-drill holes for new power poles including drilling of new earthing rods
- Temporary covers will be placed over, and temporary fencing will be placed around the holes to make safe until the new power poles are installed
- Use of mobile cranes to safely lift poles into place.

Map of work area

What you may notice

Transport for NSW is committed to minimising impact on the community. Some vegetation trimming will be carried out to facilitate this work. We monitor our work activities to make sure noise levels are being managed effectively. At each work area, street parking will be unavailable 1-2 days prior to work commencing and while work is carried out. A partial lane closure may be in place closest to the work area. Access to properties may be delayed for short periods of time. For your safety, please follow the direction of traffic control. We apologise for any inconvenience this work may cause.

Keeping the community informed

If you would like to speak with the project team about this work, please contact TfNSW through the details provided below. Thank you for your patience and understanding during this work.
