

Denistone Station Upgrade

Transport Access Program

July 2023

Transport for NSW acknowledges the Wallumattagal people of the Dharug Nation as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

The Transport Access Program will deliver a better experience for Denistone Station customers, with an upgraded station accessible to all.

When we'll be working

Work hours are **7am to 6pm, Monday to Friday** and **7am to 1pm, Saturday**.

What work are we doing?

In July and August 2023, our work will include:

- resurface and relevel concourse and platforms around new lifts for a better customer experience
- installing tactile ground surface indicators along the newly resurfaced platform areas
- installing solar panels for new platform boarding access zone canopies
- reinstating the heritage facade on the main station building
- adjusting the station staircase step height and handrails
- continuing construction of a new unisex toilet on Platforms 1 and 2.

Denistone station concourse during the 9-12 June 2023 weekend trackwork

Out-of-hours work in July and August 2023

From **8pm Monday 31 July until 6am Tuesday 1 August** there will be out-of-hours work during scheduled Sydney Trains trackwork. During this work a train replacement bus service will be available.

What will this mean for you?

You may notice:

- workers and vehicles around the station
- traffic controllers and signage
- road closures, reduced speed limits and footpath closures

- pedestrian and cyclist detours with traffic controllers on site to guide you
- noise from machinery and equipment.

Managing our effects

We aim to manage our work to reduce disturbance to the community and the environment.

This includes fencing for safety and security, reducing noise as much as possible and targeted lighting to minimise light spill.

We thank you in advance for your patience during this essential work.

The transport access program will deliver a better experience for Denistone Station customers with:

Upgraded waiting areas

Improving safety for customers and staff

Improved access for customers with assisted and unassisted mobility needs

Improved access for customers with prams and bikes

Better protection from wind, rain and sun

Increased lighting, CCTV and wayfinding
