

Mariyung Maintenance Facility

Community notification

The Mariyung Maintenance Facility at Kangy Angy is purpose built to service and maintain the Mariyung fleet of intercity trains, which will progressively replace the aging V set trains across the intercity network.

UGL Limited operate and maintain the facility on behalf of Transport for NSW and NSW TrainLink.

Upcoming work – Saturday 10 to Monday 12 June 2023

We will be working from 4am Saturday 10 June to 10pm Monday 12 June within the car park area of the maintenance facility site, as well as within the traction substation, located on Enterprise Drive.

Work activities will include:

- Commissioning of electrical equipment inside the traction substation
- Installation of overhead wiring structure footings
- Signalling work
- Enabling work within the car park for a padmount transformer

Please see map overleaf for further details of the work areas.

What you may notice

Every effort will be made to minimise construction impacts to the local community.

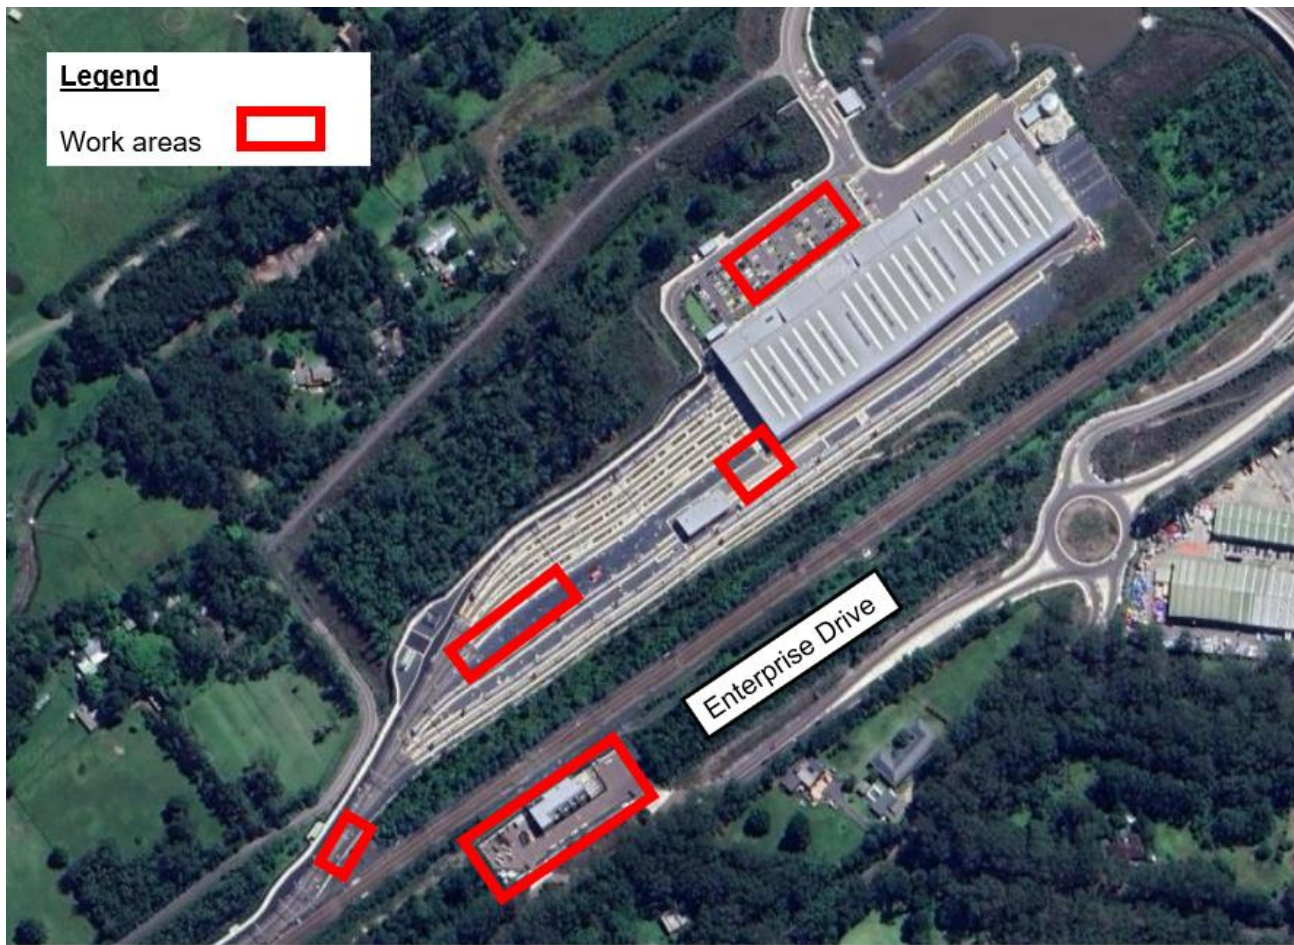

This work may generate minor noise at times, however we will take every possible step to reduce noise like turning equipment off when not in use.

Equipment

A range of equipment will be used to complete the work, including:

- Excavator
- Roller
- Crane
- Hand and power tools
- Generator
